- a) In the preparation of the annual accounts, the applicable accounting standards had been followed along with proper explanation relating to material departures;
- b) The Directors had selected such accounting policies and applied them consistently and made judgments and estimates that are reasonable and prudent so as to give a true and fair view of the state of affairs of the company at the end of the financial year and of the profit and loss of the company for that period;
- c) The Directors had taken proper and sufficient care for the maintenance of adequate accounting records in accordance with the provisions of the Companies Act, 2013 for safeguarding the assets of the company and for preventing and detecting fraud and other irregularities;
- d) The Directors had prepared annual accounts on a going concern basis; and
- e) The Directors had laid down internal financial controls to be followed by the company and that such internal financial controls are adequate and operating effectively;
- f) The directors had devised proper systems to ensure compliance by the Company with the provisions of all applicable laws and that such systems were adequate and operating effectively.

Based on the framework of internal financial controls and compliance systems established and maintained by the Company, the work performed by the internal, statutory, and secretarial auditors and external consultants, including the audit of internal financial controls over financial reporting by the statutory auditors, and the reviews performed by management and the relevant board committees, including the audit committee, the Board is of the opinion that the Company's internal financial controls were adequate and effective during the financial year 2022-2023.

21. Corporate Governance and Shareholders Information

The Company is committed to good Corporate Governance in line with the provisions of SEBI Listing Regulations and provisions, rules and regulations of the Companies Act, 2013. The Company is in compliance with the provisions on Corporate Governance specified in the SEBI Listing Regulations. A certificate of compliance from M/s. B S S & Associates, Company Secretaries and the report on Corporate Governance forms part of this Directors' Report as **Annexure – H**.

22. Secretarial Standards

The Company complies with all the applicable Secretarial Standards issued by the Institute of Company Secretaries of India.

23. Risk Management Policy

In pursuant to the provisions of the Section 134 (3)(n) of the Companies Act 2013, the Company has formulated Risk Management Policy to mitigate and manage the risk including identification therein of elements of risk, if any, which in the opinion of the Board may threaten the existence of the company.

24. Company's Policy on Prohibition, Prevention and Redressal of Sexual Harassment of Women at Workplace

Your Company is committed to provide work environment that ensures every employee is treated with dignity and respect and afforded equitable treatment. The Company is also committed to promoting a work environment that is conducive to the professional growth of its employees and encourages equality of opportunity and will not tolerate any form of sexual harassment and to take all necessary steps to ensure that its employees are not subjected to any form of harassment.

Thus, in order to create a safe and conducive work environment the Company has in place a policy for prevention of sexual harassment in accordance with the requirements of the Sexual Harassment of Women at Workplace (Prevention, Prohibition, & Redressal) Act, 2013. Further, the Company has complied with provisions relating to constitution of Internal Complaints Committee under Sexual Harassment of Women at Workplace (Prevention, Prohibition, & Redressal) Act, 2013. The Committee has been set up to redress complaints received regarding sexual harassment. All employees (permanent, contractual, trainees, temporary) are covered under this policy. The Company did not receive any complaint during the period under review.

25. Insider Trading

In compliance with the provisions of SEBI (Prohibition of Insider Trading) Regulations, 2015 and to preserve the confidentiality and prevent misuse of unpublished price sensitive information, the Company has adopted a code of conduct to Regulate, Monitor and Report Trading by Insiders ('Insider Trading Code') and code of Practices and Procedures for Fair Disclosure of unpublished Price Sensitive Information ('Code of Fair Disclosure').

The Insider Trading Code is intended to prevent misuse of unpublished price sensitive information by insiders and connected persons and ensure that the Directors and specified persons of the Company and their dependents shall not derive any benefit or assist others to derive any benefit from access to and possession of price sensitive information about the Company, which is not in the public domain, that is to say, insider information.

The code of Fair Disclosure ensures that the affairs of the Company are managed in a fair, transparent and ethical manner keeping in view the need and interest of all the Stakeholders.

26. The details of application made or any proceeding pending under the Insolvency and Bankruptcy Code, 2016 (31 of 2016) during the year along with their status as at the end of the financial year

During the year under review, Company has not made any application under the Insolvency and Bankruptcy Code, 2016 (31 of 2016).

27. The details of difference between amount of the valuation done at the time of one-time settlement and the valuation done while taking loan from the banks or financial institutions along with the reasons thereof

The requirement to disclose the details of difference between amount of the valuation done at the time of onetime settlement and the valuation done while taking loan from the Banks or Financial Institutions along with the reasons thereof is not applicable.

28. Business Responsibility and Sustainability Report (BRSR)

In terms of the Regulation 34 of the SEBI Listing Regulations the BRSR is annexed as **Annexure - I** to this Report.

29. Disclosure of Accounting Treatment

The financial statements have been prepared and presented under the historical cost basis except for certain financial instruments which are measured at fair value or amortized cost and accrual basis of accounting, unless otherwise stated, and are in accordance with Generally Accepted Accounting Principles in India ('GAAP'), statutory requirements prescribed under the Accounting Standards ('AS') specified under Section 133 of the Companies Act, 2013 read together with the Companies (Accounting Standards) Rules, 2021, in so far as they are applicable to the Company.

30. Disclosures with respect to demat suspense account/ unclaimed suspense account

Not applicable.

31. Disclosure of certain types of agreements binding the Company

During the year 2022-2023, the Company has not entered into any agreement which is binding the Company.

MANAGEMENT DISCUSSION AND ANALYSIS (MDA)

Company Overview:

MosChip Technologies Limited is a publicly traded semiconductor and system design services company headquartered in Hyderabad, India, with 1300+ engineers located in Silicon Valley-USA, Hyderabad, Bangalore, Ahmedabad and Pune. MosChip provides turn-key digital and mixed-signal ASICs, design services, SerDes IP, and embedded system design solutions. Over the past 2 decades, MosChip has developed and shipped millions of connectivity ICs. For more information, visit www.moschip.com.

Business units and expertise

Moschip is currently focused on Semiconductor design services, Mixed Signal IP, Turn-key ASIC solutions and Embedded product design services.

Performance Review:

- On consolidated basis, the income from operations grew to Rs.19,835.54 lakhs from Rs.14,764.40 lakhs registering a growth of 34.35 % year on year. The increased growth is predominately attributed to the growth of Turnkey ASICS and IP services revenue. The Profit before Interest, Depreciation and Tax stood at Rs.3,128.45 lakhs while that of previous year stood at Rs.2,770.56 lakhs. The Consolidated results showed a Net profit for the year at Rs. 617.77 lakhs as against a Net profit of Rs. 645.30 lakhs in the previous year.
- On a standalone basis, income from operations for the year stood at Rs.17,120.28 lakhs as against Rs. 12,070.32 lakhs for the preceding year. Standalone Net profit for the FY 2022-23 was Rs.526.99 lakhs as against Net profit of Rs.537.10 lakhs for the FY 2021-22.

This performance was possible due to the proper vision and strategy of leadership team, efficient execution of operational team and with the support of dedicated employees, which is paving way for the long term sustainable growth. The Company is poised to be part of emerging opportunities by continuing to focus on its inherent strengths in services, turnkey solutions, IP & Training.

The key financial ratios for the FY 2022-2023 in comparison with FY 2021-2022 are mentioned in "Annexure A of Standalone financials" forming part of standalone financials.

Some of the key developments are:

- Acquisition of Softnautics Inc to strengthen Leadership in Product Engineering Solutions in Embedded, FPGA and VLSI.
- Member of Design Center Alliance (DCA) of TSMC, this enables us to have access to leading technology at TSMC.
- Established state of art training & innovation center to upscale the skill set of engineers.
- Significant progress with high speed SerDes IP portfolio.
- Acquisition of new customers in North America.
- New strategic initiatives into
 - Artificial Intelligence
 - Application Specific Standard Products (ASSP)
 - RISC V platform
 - other emerging areas
- Consolidation of office spaces resulting in office spaces in Hyderabad, Bangalore, Ahmedabad and Pune.

Semi-conductor Industry:

Semiconductors are the key components in every electronic system that includes smartphones, personal computers, Laptops, Communication and networking systems, Medical equipment and Automobiles. Emerging technologies and applications in the areas of 5G communications and Artificial intelligence are further fuelling the growth. Semiconductor industry will benefit from the ongoing innovation and development in connectivity, data centres, communications, automotive, safety & security, infotainment, navigation, home automation, wearable devices, etc. and will continue to see growth in the coming decades.

The global semiconductor market is predicted to experience a downturn of 10.3% in 2023. However, this is anticipated to be followed by a robust recovery, with an estimated growth of 11.9% in 2024.

After observing a modest growth of 3.3% in the year 2022, World Semiconductor Trade Statistics (WSTS) has adjusted its forecast to reflect a more substantial, double-digit decrease in the worldwide semiconductor market for 2023. The estimated market size is projected to reach \$515 billion, indicating a decrease of 10.3%.

WSTS has adjusted its growth projections downwards in response to increasing inflation and weakening demand in end markets, particularly those relying on consumer spending. Although two primary categories, discrete and optoelectronics, are predicted to sustain single-digit year-over-year growth in 2023, at 5.6% and 4.6% respectively, other categories are anticipated to shift into negative growth. This includes Memory, which is forecasted to decline by approximately 35% year over year.

For the year 2023, the European and Japanese markets are projected to experience growth, with respective increases of 6.3 and 1.2%. Conversely, the remaining regions are anticipated to face a downturn, with the Americas expected to decline by 9.1% and the Asia Pacific region by 15.1%.

DLI Scheme by Govt of India:

Semiconductors are at the heart of all electronic products and constitute a significant share in the Bill of Material (BOM). The National Policy on Electronics 2019 aims to position India as a global hub for Electronics System Design and Manufacturing (ESDM) and envisions creation of a vibrant semiconductor chip design ecosystem in the country. With an exceptional talent pool of 20% of world's semiconductor design engineers and thousands of chips designed by them every year in the country, India is poised for growth to achieve self-reliance and technology leadership in semiconductor design sector.

Ministry of Electronics and Information technology has announced the Design Linked Incentive (DLI) Scheme to offset the disabilities in the domestic industry involved in semiconductor design in order to not only move up in value-chain but also strengthen the semiconductor chip design ecosystem in the country. CDAC is responsible for implementation of the DLI Scheme as Nodal Agency.

The Design Linked Incentive (DLI) Scheme aims to offer financial incentives as well as design infrastructure support across various stages of development and deployment of semiconductor design(s) for Integrated Circuits (ICs), Chipsets, System on Chips (SoCs), Systems & IP Cores and semiconductor linked design(s) over a period of 5 years.

Objectives

- Nurturing and facilitating the growth of the domestic companies, startups and MSMEs.
- Achieving significant indigenization in semiconductor content and IPs involved in the electronic products deployed in the country, thereby facilitating import substitution and value addition in electronics sector.
- Strengthening and facilitating access to semiconductor design infrastructure for the startups and MSMEs.

During the year the Company has made an application to participate in DLI Scheme, the application is presently under review with CDAC.

SerDes

The SerDes market is expected to reach USD 2540.0 million (source IP Next Market survey report) by 2025 and is projected to capture a healthy compound annual growth rate of 21.7%. SerDes combines the Serializer and Deserializer which are required for high-speed communication to convert the serial data and parallel data while reducing the data lines. Several applications involve huge data transmission operations which require efficiency and speed.

The automotive industry, the demand for the SerDes is rapidly increasing, owing to the deployment of driver safety protocols and cameras to monitor various factors such as monitoring the circumstances during the drive, monitoring the health parameters during the drivers, and so on.

The SerDes IP 5 years forecast is very aggressive: this segment should increase from \$114million in 2020 up to \$328 million in 2025, with 24% CAGR! (source IP Next Market Survey report) The reasons for such high growth are well-known, linked with the booming demand for more bandwidth in data center and all along the data flow: computing, storage and network.

The overall Indian economy size reaching USD 3.1 trillion and with a target of reaching USD 5.0 trillion by FY26. This growth will be predominantly dominated by manufacturing through reengineering by adopting cutting edge technology, these necessarily calls for a high demand for PAM4 SerDes technology.

We consider a SerDes to be Very High Speed (VHS) when the data rate is equal to 56 Gbps, or more (112 G). Up to 28 Gbps, a SerDes design is following NRZ or PAM2 signaling, when at 56 Gbps and above the signaling is expected to be PAM4 (4 Level Pulse Amplitude Modulation) where every 2 bits are mapped to one symbol.

In summary, the semiconductor industry is on a solid growth path fueled by growth in multiple segments.

Company centric Highlights and Key developments in IoT Segment

MosChip's refined focus on Semiconductor design services, Semiconductor IP for connectivity, Turn-key ASIC solutions, Embedded system and software design services, has been yielding steady and consistent growth for the last few quarters.

MosChip's concrete efforts to strengthen its technology expertise and broaden its solutions and product engineering services offerings continue to help acquire new customers and additional business with existing customers.

Moschip continues to invest in semiconductor IP for connectivity solutions that includes 16G to 64G for PCIE applications, Ethernet connectivity and high speed data converters. Moschip has been refocusing on turn-key ASIC solutions, leveraging its IP portfolio, design capabilities and established relationships with semiconductor fabs and manufacturing houses.

07	MosChip Stock Option Plan 2022	1,00,00,000	27 th June, 2022

- c) Each option granted to eligible employees shall entitle such employees to one equity share of the nominal value of Rs.2 /- each at a price to be determined by the Board of Directors or Nomination & Remuneration Committee or the market price. However, subject to the regulations or guidelines of the SEBI in regard to the pricing of the Options, as applicable from time to time. The equity shares issued upon exercise of the Options shall rank pari passu in all respects with the existing equity shares.
- d) Each option shall be vested after a minimum period of 12 months from the date of grant of the Option or at such times as may be determined by the Board or Nomination & Remuneration Committee from time to time.
- e) The Options shall be valid and exercisable for such periods as may be determined by the Board or Nomination & Remuneration Committee, from time to time. Options not exercised within the specified period will lapse. All options that are lapsed will be added back to the pool and are eligible for future grants to the employees.
- f) Out of above plans the Company has granted options during the year ended 31 March 2023 in Moschip Stock Option Plan 2005 (WOS), Moschip Stock Option Plan 2008, Moschip Stock Option Plan 2018 and Moschip Stock Option Plan 2022.

The annual calendar of meetings is broadly determined at the beginning of each year. The Board meets at least once in a quarter to review the quarterly financial results and operations of the Company. Apart from the above, additional Board Meetings are convened to address the specific needs of the Company. In case of urgent business exigencies some resolutions are also passed by circulation, as permitted by law, which is confirmed in the subsequent Board Meeting. Time gap between two consecutive meetings does not exceed 120 days. Video Conferencing / teleconferencing facilities are also made available to enable participation of Directors, in case they are unable to attend the meeting physically.

There is a structured manner in which the agenda items are prepared and presented. The Company Secretary in consultation with the Chairman and the Executive Director prepares the detailed agenda for the meetings. All the agenda items are backed by comprehensive agenda notes and relevant supporting papers containing all the vital information, so as to enable the Directors to have focused discussion at the meeting and take informed decisions. The agenda and agenda notes are circulated to all the Directors well in advance, usually a week before the Meeting. In case of sensitive agenda matters, where it is not practical to circulate the relevant information as part of the agenda papers, the same is tabled at the meeting. In special and exceptional circumstances, additional or supplementary agenda items are taken-up for discussion with the permission of the Chairman. The members of the Board or Committees are free to suggest any item to be included in the agenda, in addition to exercising their right to bring up matters for discussion at the meeting with permission of the Chairman.

The Senior Management Personnel are invited to the Board/ Committee Meetings to apprise and update the members on the items being discussed at the meeting. All the relevant information as enumerated in Part A of Schedule II of the SEBI Listing Regulations is placed before the Board and the Board in particular reviews and approves corporate strategies, business plan, annual budget, capital expenditure etc. The Board periodically reviews the compliance status of all the applicable laws and is regularly updated on various legal and regulatory developments involving the Company. Action Taken Report in respect of the decisions arising out of the previous meetings is placed at the succeeding meeting of the Board/Committee. The Members of the Board have complete freedom to express their opinion and have unfettered and complete access to information in the Company. All the decisions are taken after detailed deliberations by the Board Members at the meetings.

The draft minutes of each Board/Committee meetings are circulated to all Directors for their comments within 15 days of the meeting. The Company Secretary, after incorporating comments, received if any, from the Directors, records the minutes of each Board/Committee meeting within 30 days from conclusion of the meeting. During the Financial Year 2022-2023, the Board met 07 (seven) times.

S. No.	Material issue identified	Indicate whether risk or opportunity (R/O)	Rationale for identifying the risk / opportunity	In case of risk, approach to adapt or mitigate	Financial implications of the risk or opportunity (Indicate positive or negative implications)
1.	Employee well-being, health and Safety	Risk	The Company's people are important to it, and its vision includes 'to be a preferred employer of choice,' towards which health and well-being is essential.	Wellness & safety: We are a cognitive enterprise that values above all its human and intellectual capital as the main source of our customer value proposition and competitive advantage. We care deeply about our people's physical wellness and safety as well as emotional well-being.	Positive
2.	Data Privacy and Security	Risk & Opportunity	It is important to safeguard the enterprise data and also to fulfil the contractual responsibility to customers. The increasing landscape of data privacy laws across the globe also possess a risk of penalties on non-compliances and reputational loss. (Risk)	Enhanced cyber security measures like robust processes, policies, awareness and sensitization programmes.	Positive
3.	Diversity, Equity and Inclusion.	Opportunity	As devices become smart and connected, they also become vulnerable to attacks. This presents a good opportunity to secure equipment and create a safe environment for our operations. (Opportunity)	Developing capability and demonstrator to address potential commercial opportunity	Positive

			In line with the Company's Code of Conduct and stakeholder expectations	-	
4.	Waste	Risk	Aligning with the principle of reducing resource use.	Reduction of waste by awareness and responsible disposal leading to recycling.	Positive
5.	Water	Opportunity	Though the company's operations are not water-intensive, the overall functioning of the company, including employee well-being and facility maintenance, requires a significant amount of water. From restroom facilities and kitchen areas to cooling systems for data centers, water is essential.	Implementing water-efficient fixtures, monitoring and addressing leaks promptly, and promoting water-conscious behaviors among employees are key steps in minimizing the company's water footprint. As businesses continue to embrace environmental responsibility, optimizing water usage becomes an integral part of the broader sustainability strategy of the company.	Positive
6.	Corporate Governance and Conduct	Opportunity	Corporate governance is critical for the success of MosChip and any risks can result in reputation loss and damage to stakeholder trust and business disruption.	Periodical internal reviews, audit and presentations on changes introduced by regulators.	Positive
7.	Talent risk due to huge demand for talent globally and attrition	Risk & Opportunity	<ul style="list-style-type: none"> The company's ability to attract, develop, motivate, and retain talent is critical to its business success. 	<ul style="list-style-type: none"> Commitment to organic talent development, best in class learning and development, career growth linkage to cross-skilling / upskilling, preference to internal talent for new leadership positions, all incentivize planning of longer-term careers in MosChip 	Positive

			<ul style="list-style-type: none"> • Talent scarcity can lead to poaching of the company's employees and result in higher attrition. Report on the Audit of the Consolidated Financial Statements**Opinion**

We have audited the accompanying Consolidated Financial Statements of MosChip Technologies Limited (here in after referred to as the "Holding Company") and its subsidiaries (Holding Company and its three subsidiaries together referred to as 'the Group'), which comprise the Consolidated Balance Sheet as at 31 March, 2023, the Consolidated Statement of Profit and Loss (including Other Comprehensive Income), the Consolidated Statement of Changes in Equity and the Consolidated Statement of Cash Flows for the year then ended, and notes to the Consolidate Financial Statements, including a summary of the significant accounting policies and other explanatory information (hereinafter referred to as 'the Consolidated Financial Statements').

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Consolidated Financial Statements give the information required by the Companies Act, 2013 ('the Act') in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015 as amended ('Ind AS') and other accounting principles generally accepted in India, of the consolidated state of affairs of the Group as at 31 March 2023, of its consolidated profit and other comprehensive income, consolidated changes in equity and consolidated cash flows for the year then ended.

Basis for opinion

We conducted our audit of the Consolidated Financial Statements in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the independence requirements that are relevant to our audit of the Consolidated Financial Statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence we have obtained and the audit evidence obtained by the other auditors in terms of their reports referred to the Other Matters section below, other than the unaudited financial statements/ special purpose financial information as certified by the management and referred to the Other Matters section below, is sufficient and appropriate to provide a basis for our opinion.

Key audit matters

Key audit matters('KAM') are those matters that, in our professional judgment, were of most significance in our audit of the Consolidated Financial Statements of the current period. These matters were addressed in the context of our audit of the Consolidated Financial Statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matters described below to be the key audit matters to be communicated in our report.

Information Other than the Consolidated Financial Statements and Auditor's Report Thereon

The Holding Company's Management and Board of Directors are responsible for the preparation of the other information. The other information comprises the information included in the Management Discussion and Analysis, Board's Report including Annexures to Board's Report, Business Responsibility Report, Sustainability Report, Corporate Governance and Shareholder's Information, but does not include the Consolidated Financial Statements and our auditor's report thereon.

Our opinion on the Consolidated Financial Statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the Consolidated Financial Statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the Consolidated Financial Statements, or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated. If, based on the work we have performed, and the reports of the other auditors as furnished to us, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibility of Management and Those Charged with Governance for the Consolidated Financial Statements

The Holding Company's management and Board of Directors are responsible for the matters stated in section 134(5) of the Act with respect to the preparation and presentation of these Consolidated Financial Statements that give a true and fair view of the consolidated financial position, consolidated financial performance and comprehensive income, consolidated statement of changes in equity and consolidated cash flows of the Group in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under section 133 of the Act. The respective Board of Directors of the companies included in the Group are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Group and for preventing and detecting frauds and other irregularities; the selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Consolidated Financial Statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the Consolidated Financial Statements by the directors of the Holding Company, as aforesaid.

In preparing the Consolidated Financial Statements, the respective management and Board of Directors of the companies included in the Group are responsible for assessing the ability of each companies to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the entity or to cease operations, or has no realistic alternative but to do so.

The respective Board of Directors of the entities included in the Group are responsible for overseeing the financial reporting process of the Group.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the Consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Consolidated financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the Consolidated Financial Statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal controls.
- Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Holding Company and its subsidiary companies which are incorporated in India, has adequate internal financial controls with reference to Consolidated financial statements in place system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and reasonableness of accounting estimates and related disclosures made by the management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting in preparation of Consolidated Financial Statements and based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the appropriateness of this assumption. If we conclude that a material uncertainty exists, we are required

INDEPENDENT AUDITOR'S REPORT

to draw attention in our auditor's report to the related disclosures in the Consolidated Financial Statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the Consolidated Financial Statements, including the disclosures, and whether the Consolidated Financial Statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtained sufficient appropriate audit evidence regarding the financial information of such entities or business activities within the Group to express an opinion on the consolidated financial statements.

Materiality is the magnitude of misstatements in the Consolidated Financial Statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the Consolidated Financial Statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the Consolidated Financial Statements.

We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for audit opinion on the Consolidated Financial Statements.

We communicate with those charged with governance of the Holding Company and such other entities included in the Consolidated Financial Statements of which we are the independent auditor's regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the Consolidated Financial Statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Other Matters

We did not audit the financial statements of one subsidiary included in the consolidated financial results, whose financial statements reflect total assets of Rs. 817.26 lakhs as at 31 March 2023 and total revenues of Rs. 8,022.33 lakhs, total net Profit after tax of Rs. 402.36 lakhs, total comprehensive income of Rs. 419.11 lakhs and net cash outflows of Rs. 445.74 lakhs for the year ended 31 March 2023, as considered in the Statement. These financial statements have been audited by other auditor whose report has been furnished to us by the Management and our opinion and conclusion on the consolidated financial results included in the Statement, in so far as it relates to the amounts and disclosures included in respect of the subsidiary is based solely on the report of the other auditor and the procedures performed by us are as stated in paragraph above.

Our opinion on the Consolidated Financial Results is not modified in respect of the above matters with respect to our reliance on the work done and the reports of the other auditor and Financial Results/ financial information certified by the Board of Directors

We did not review the financial information of one subsidiary included in the consolidated financial results, whose financial information reflect total revenues is Nil for the year ended 31 March 2023, total net loss after tax of Rs. 1.80 lakhs, total comprehensive loss of Rs. 1.80 lakhs for the year ended 31 March 2023, as considered in the Statement. These financial statements have not been audited by their auditors. The financial information are unaudited and have been furnished to us by the Management and our conclusion on the Statement, in so far as it relates to the amounts and disclosures included in respect of the subsidiary, is based solely on such unaudited financial information. In our opinion and according to the information and explanations given to us by the Board of Directors, these financial information are not material to the Group.

Our opinion on the consolidated financial statements, and our report on Other Legal and Regulatory Requirements

INDEPENDENT AUDITOR'S REPORT

below, is not modified in respect of the above matters with respect to our reliance on the work done and the reports of the other auditors and the financial statements/ financial information certified by the Management.

Report on Other Legal and Regulatory Requirements

Annexure A to the Independent Auditors’ Report

(Referred to in paragraph 2 (f) under ‘Report on Other Legal and Regulatory Requirements’ section of our report of even date)

=====

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)

We have audited the internal financial controls with reference to Consolidated financial statements of MosChip Technologies Limited (“the Company”) as of 31 March 2023 in conjunction with our audit of the consolidated financial statements of the Company for the year ended on that date.

Management’s Responsibility for Internal Financial Controls

The Company’s management is responsible for establishing and maintaining internal financial controls based on the internal control with reference to financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (“ICAI”). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the Company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditor’s Responsibility

Our responsibility is to express an opinion on the Company’s internal financial controls with reference to financial statements based on our audit. We conducted our audit in accordance with the Guidance Note and the Standards on Auditing, issued by ICAI and deemed to be prescribed under Section 143(10) of the Act, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to financial statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial control system with reference to financial statements and their operating effectiveness. Our audit of internal financial controls with reference to financial statements included obtaining an understanding of internal financial controls over to financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgement, including the assessment of the risks of material misstatement of the Consolidated Financial Statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company’s internal financial controls system over financial reporting.

Meaning of Internal Financial Controls with reference to Financial Statements

A company’s internal financial control with reference to financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company’s internal financial control with reference to financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management

**INDEPENDENT
AUDITOR'S REPORT**

and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls with reference to Financial Statements

Because of the inherent limitations of internal financial controls with reference to financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to financial statements to future periods are subject to the risk that the internal financial control with reference to financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2023, based on the criteria for internal financial control over financial reporting established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the ICAI.

1 Corporate information

MosChip Technologies Limited ('the Company') was incorporated in 1999 as a private limited company under the Companies Act, 1956 and got listed in Bombay Stock Exchange (BSE) in 2001. The registered office of the Company is situated at 7th Floor, "My Home Twitza", Hyderabad Knowledge City, Hyderabad - 500081. which is its principal place of business. As on 31 March 2023, the Company has three wholly owned subsidiary companies in India, Kingdom of Bahrain and USA. As on 31 March 2023, Mayuka Holdings Private Limited is the holding company of the Company.

The Group is engaged in to business of development and manufacture of System on Chip (SOC) technologies and Internet on Things (IoT).

The Consolidated Financial Statements for the year ended March 31, 2023 were approved by the Board of Directors and authorised for issue on 24 May 2023.

2 Significant accounting policies

2.1 Statement of compliance

These Consolidated Financial Statements have been prepared in accordance with the Indian Accounting Standards ("Ind AS") prescribed under section 133 of the Companies Act, 2013 read with the Companies (Indian Accounting Standards) Rules as amended from time to time.

2.2 Basis of preparation of Consolidated Financial Statements:

The functional currency of the Company and its Indian subsidiaries is the Indian Rupee. The functional currency of foreign subsidiaries is the currency of the primary economic environment in which the entity operates.

These Consolidated Financial Statements have been prepared on historical cost basis except for certain financial instruments which are measured at fair value or amortised cost at the end of each reporting period as explained in the accounting policies below. Historical cost is generally based on the fair value of the consideration given in exchange for goods and services. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. All assets and liabilities have been classified as current and non-current as per the Group's normal operating cycle. Based on the nature of services rendered to customers and time elapsed between deployment of resources and the realisation in cash and cash equivalents of the consideration for such services rendered, the Group has considered an operating cycle of 12 months.

2.3 Basis of Consolidation:

The Consolidated Financial Statements comprise the Financial Statements of MosChip Technologies Limited and its subsidiaries (the Company and its Subsidiaries constitute "the Group").

The Company has consolidated all entities which are controlled by it.

The Company establishes control when; it has power over the entity, is exposed, or has rights, to variable returns from its involvement with the entity and has the ability to affect the entity's returns by using its power over relevant activities of the entity.

The consolidated financial statements of the Group companies are consolidated on a line-by-line basis and intra-group balances, transactions including unrealized gain / loss from such transactions and cash flows are eliminated upon consolidation. These financial statements are prepared by applying uniform accounting policies in use at the Group. Non-controlling interests which represent part of the net profit or loss and net assets of subsidiaries that are not, directly or indirectly, owned or controlled by the company, are excluded.

Entities controlled by the Company are consolidated from the date control commences until the date control ceases.

Changes in the Company's interests in subsidiaries that do not result in a loss of control are accounted for as equity transactions. The carrying amount of the company's interests and the non-controlling interests are adjusted to reflect changes in their relative interests in the subsidiaries. Any difference between the amount by which the non-controlling interests are adjusted and the fair value of the consideration paid or received is recognized directly in equity and attributed to owners of the Company.

2.4 Business combinations

Business combinations are accounted for using the purchase (acquisition) method. The cost of an acquisition is measured as the fair value of the assets transferred, liabilities incurred or assumed and equity instruments issued at the date of exchange by the Group. Identifiable assets acquired and liabilities and contingent liabilities assumed in a business combination are measured initially at fair value at the date of acquisition. Transaction costs incurred in connection with a business acquisition are expenses as incurred.

When the consideration transferred by the Company in a business combination includes assets or liabilities resulting from a contingent arrangement, the contingent consideration is measured at its acquisition date fair value and included as part of the consideration transferred in a business combination. Contingent consideration that is classified as an asset or liability is remeasured at subsequent reporting dates in accordance with IND AS 109 Financial Instruments or IND AS 37 Provisions, Contingent Liabilities and Contingent Assets, with the corresponding gain or loss being recognized in profit or loss.

Business combinations arising from transfers of interests in entities that are under the common control are accounted at historical cost. The difference between any consideration given and the aggregate historical carrying amounts of assets and liabilities of the acquired entity are recorded in shareholders' equity.

2.5 Operating cycle

All the assets and liabilities have been classified as current or non-current as per the Company's normal operating cycle and other criteria set out in the Schedule III to the Companies Act, 2013.

Assets :

An asset is classified as current when it satisfies any of the following criteria:

- it is expected to be realized in, or is intended for sale or consumption in, the Company's normal operating cycle;
- it is held primarily for the purpose of being traded;
- it is expected to be realized within twelve months after the reporting date; or
- it is cash or cash equivalent unless it is restricted from being exchanged or used to settle a liability for at least twelve months after the reporting date.

Liabilities :

A liability is classified as current when it satisfies any of the following criteria:

- it is expected to be settled in the Company's normal operating cycle;
- it is held primarily for the purpose of being traded;
- it is due to be settled within twelve months after the reporting date; or
- the Company does not have an unconditional right to defer settlement of the liability for at least twelve months after the reporting date.

Terms of a liability that could, at the option of the counterparty, result in its settlement by the issue of equity instruments do not affect its classification.

Current assets / liabilities include the current portion of non-current assets/ liabilities respectively. All other assets / liabilities are classified as non-current.

2.6 Use of estimates:

The preparation of consolidated financial statements requires the management of the Group to make estimates and assumptions that affect the reported amounts of assets and liabilities on the date of consolidated financial statements, disclosure of contingent liabilities as at the date of the consolidated financial statements, and the reported amounts of income and expenses during the reported period. Actual results may differ from these estimates. Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized prospectively.

Critical accounting estimates

(i) Revenue recognition

The Group applies the percentage of completion method in accounting for its fixed price development contracts. Use of the percentage of completion method requires the Group to estimate the efforts or costs expended to date (input method) as a proportion of the total efforts or costs to be expended. Efforts or costs expended have been used to measure progress towards completion as there is a direct relationship between input and productivity. Provisions for estimated losses, if any, on uncompleted contracts are recorded in the period in which such losses become probable based on the expected contract estimates at the reporting date.

Judgement is also required to determine the transaction price for the contract and to describe the transaction price to each distinct performance obligation. The transaction price could be either a fixed amount of customer consideration or variable consideration with elements such as volume discounts, service level credits, performance bonuses, price concessions and incentives. The transaction price is also adjusted for the effects of the time value of money if the contract includes a significant financing component. Any consideration payable to the customer is adjusted to the transaction price, unless it is a payment for a distinct product or service from the customer. The estimated amount of variable consideration is adjusted in the transaction price only to the extent that it is highly probable that a significant reversal in the amount of cumulative revenue recognized will not occur and is reassessed at the end of each reporting period. The Company allocates the elements of variable considerations to all the performance obligations of the contract unless there is observable evidence that they pertain to one or more distinct performance obligations.

The Group exercises judgments while determining the transaction price allocated to performance obligations using the expected cost plus margin approach.

(ii) Income taxes and deferred taxes

The major tax jurisdictions for the Group are India and the United States of America. Significant judgments are involved in determining the provision for income taxes including judgment on whether tax positions are probable of being sustained in tax assessments. A tax assessment can involve complex issues, which can only be resolved over extended time periods. Deferred tax is recorded on temporary differences between the tax bases of assets and liabilities and their carrying amounts, at the rates that have been enacted or substantively enacted at the reporting date.

The ultimate realization of deferred tax assets is dependent upon the generation of future taxable profits during the periods in which those temporary differences and tax loss carry forwards become deductible. The Company considers the expected reversal of deferred tax liabilities and projected future taxable income in making this assessment. The amount of the deferred tax assets considered realizable, however, could be reduced in the near term if estimates of future taxable income during the carry-forward period are reduced.

(iii) Property, plant and equipment

Property, plant and equipment represent a significant proportion of the asset base of the Group. The charge in respect of periodic depreciation is derived after determining an estimate of an asset's expected useful life and the expected residual value at the end of its life. The useful lives and residual values of Group's assets are determined by management at the time the asset is acquired and reviewed at the end of each reporting period. The lives are based on historical experience with similar assets as well as anticipation of future events, which may impact their life, such as changes in technology.

(iv) Provisions

A provision is recognized when the Group has a present obligation as a result of a past event and it is probable that an outflow of resources will be required to settle the obligation, in respect of which a reliable estimate can be made. These are reviewed at each balance sheet date and adjusted to reflect the current best estimates.

(v) Business combinations and intangible assets

Business combinations are accounted for using Ind AS 103. Ind AS 103 requires the identifiable net assets and contingent consideration to be fair valued in order to ascertain the net fair value of identifiable assets, liabilities and contingent liabilities of the acquiree. Significant estimates are required to be made in determining the value of contingent consideration and intangible assets and their estimated useful life. These valuations are generally conducted by independent valuation experts.

(vi) Impairment of Goodwill

Goodwill is tested for impairment on an annual basis and whenever there is an indication that the recoverable amount of a cash generating unit is less than its carrying amount based on a number of factors including operating results, business plans, future cash flows and economic conditions. The recoverable amount of cash generating units is determined based on higher of value-in-use and fair value less cost to sell.

The goodwill impairment test is performed at the level of the cash-generating unit or groups of cash-generating units which are benefitting from the synergies of the acquisition and which represents the lowest level at which goodwill is monitored for internal management purposes. Market related information and estimates are used to determine the recoverable amount. Key assumptions on which management has based its determination of recoverable amount include estimated long term growth rates, weighted average cost of capital and estimated operating margins. Cash flow projections take into account past experience and represent management's best estimate about future developments.

(vii) Defined benefit plans and compensated absences

The cost of the defined benefit plans, compensated absences and the present value of the defined benefit obligation are based on actuarial valuation using the projected unit credit method. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases and mortality rates. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

(viii) Expected credit losses on financial assets

The impairment provisions of financial assets are based on assumptions about risk of default and expected timing of collection. The Group uses judgment in making these assumptions and selecting the inputs to the impairment calculation, based on the Company's past history, customer's creditworthiness, existing market conditions as well as forward looking estimates at the end of each reporting period.

(ix) Other estimates

The share based compensation expense is determined based on the Group's estimate of equity instruments that will eventually vest.

2.7 Property, plant and equipment

Recognition and measurement

Property, plant & equipment and intangible assets are stated at cost less accumulated depreciation/amortisation and net of impairment. Cost of an item of property, plant and equipment comprises its purchase price, including import duties and non-refundable purchase taxes, after deducting trade discounts and rebates, any directly attributable costs of bringing the item to its working condition for its intended use and estimated cost of dismantling and removing the item and restoring the site on which it is located. Subsequent expenditure relating to property, plant and equipment is capitalized only when it is probable that future economic benefits associated with these will flow to the company and the cost of the item can be measured reliably.

NOTES FORMING PART OF THE CONSOLIDATED FINANCIAL STATEMENTS

CONSOLIDATED

All amounts in ₹ lakhs

The cost of property, plant and equipment not ready / available for use as at each reporting date is disclosed under capital work in progress.

Depreciation

Depreciable amount for assets is the cost of an asset, less its estimated residual value. Depreciation on Property, Plant & Equipment (including assets taken on lease), other than freehold land, is charged based on the straight line method on the estimated useful life as prescribed in schedule II to the Companies Act, 2013 except in respect of the certain categories of assets, where the life of the assets has been assessed based on internal technical estimate, considering the nature of the asset and estimated usage of the asset, the operating conditions of the asset, past history of replacement, anticipated technological changes.

The estimated useful lives of assets are as follows:

Useful lives of depreciable assets	Useful Life (in years)
Mask tools	5
Lab equipment	5
Plant and machinery	5
Furniture and fixtures	10
Office equipment	5
Computers	3
Vehicles	10
Other Intangible assets	3 - 5 years

The estimated useful life of intangible assets (software) is 3 to 5 years and these are amortised on a straight line basis. Project specific intangible assets are amortised over their estimated useful life on a straight line basis or over the period of the license/project period, whichever is lower.

The estimated useful life and residual values of property, plant & equipment and intangible assets are reviewed at the end of each reporting period.

Assets acquired under leasehold improvements are amortized over the shorter of estimated useful life of the asset or the related lease term.

Intellectual Property Rights ('IPR') comprise right to use for licensed software. The Group has recognized the IPR based on consideration paid. Subsequent to initial recognition, the intangible asset is measured at cost, less any accumulated amortization and accumulated impairment losses. The IPR's are amortised over their estimated useful life of the asset on a straight line basis.

An item of Property, Plant & Equipment and intangible asset is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of Property, Plant & Equipment and intangible assets is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognized in profit or loss.

2.8 Leases

At inception of the contract, the Group determines whether the contract is a lease or contains a lease arrangement. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

The Group recognises right-of-use (RoU) asset representing its right to use the underlying asset for the lease term at the lease commencement date. The cost of the right-of-use asset measured at inception shall comprise of the amount of the initial measurement of the lease liability adjusted for any lease payments made at or before the commencement date less any lease incentives received, plus any initial direct costs incurred and an estimate of costs to be incurred by the lessee in dismantling and removing the underlying

asset or restoring the underlying asset or site on which it is located. The RoU assets is subsequently measured at cost less any accumulated depreciation, accumulated impairment losses, if any and adjusted for any remeasurement of the lease liability. The right-of-use assets is depreciated using the straight-line method from the commencement date over the shorter of lease term or useful life of RoU asset. The estimated useful lives of RoU assets are determined on the same basis as those of property, plant and equipment. RoU assets are tested for impairment whenever there is any indication that their carrying amounts may not be recoverable. Impairment loss, if any, is recognized in the consolidated statement of profit and loss.

The Group measures the lease liability at the present value of the lease payments that are not paid at the commencement date of the lease. The lease payments are discounted using the interest rate implicit in the lease, if that rate can be readily determined. If that rate cannot be readily determined, the Group uses incremental borrowing rate. For leases with reasonably similar characteristics, the Group, on a lease by lease basis, may adopt either the incremental borrowing rate specific to the lease or the incremental borrowing rate for the portfolio as a whole. The lease payments shall include fixed payments, variable lease payments, residual value guarantees, exercise price of a purchase option where the Group is reasonably certain to exercise that option and payments of penalties for terminating the lease, if the lease term reflects the lessee exercising an option to terminate the lease. The lease liability is subsequently remeasured by increasing the carrying amount to reflect interest on the lease liability, reducing the carrying amount to reflect the lease payments made and remeasuring the carrying amount to reflect any reassessment or lease modifications or to reflect revised in-substance fixed lease payments.

The Group recognises the amount of the remeasurement of lease liability as an adjustment to the RoU asset. Where the carrying amount of the RoU asset is reduced to zero and there is a further reduction in the measurement of the lease liability, the Group recognises any remaining amount of the re-measurement in consolidated statement of profit and loss.

The Group has elected not to apply the requirements of Ind AS 116 to short-term leases of all assets that have a lease term of 12 months or less and leases for which the underlying asset is of low value. The lease payments associated with these leases are recognized as an expense on a straight-line basis over the lease term.

Business combinations are accounted for using the purchase (acquisition) method. The cost of an acquisition is measured as the fair value of the assets transferred, liabilities incurred or assumed and equity instruments issued at the date of exchange by the Company. Identifiable assets acquired and liabilities and contingent liabilities assumed in a business combination are measured initially at fair value at the date of acquisition. Transaction costs incurred in connection with a business acquisition are expenses as incurred.

When the consideration transferred by the Company in a business combination includes assets or liabilities resulting from a contingent arrangement, the contingent consideration is measured at its acquisition date fair value and included as part of the consideration transferred in a business combination. Contingent consideration that is classified as an asset or liability is remeasured at subsequent reporting dates in accordance with IND AS 109 Financial Instruments or IND AS 37 Provisions, Contingent Liabilities and Contingent Assets, with the corresponding gain or loss being recognized in consolidated statement of profit or loss.

Goodwill and intangible assets

Goodwill represents the cost of acquired business as established at the date of acquisition of the business in excess of the acquirer's interest in the net fair value of the identifiable assets, liabilities and contingent liabilities less accumulated impairment losses, if any. Goodwill is tested for impairment annually or when events or circumstances indicate that the implied fair value of goodwill is less than its carrying amount.

Intangible assets acquired separately are measured at cost of acquisition. Intangible assets acquired in a business combination are measured at fair value as at the date of acquisition. Following initial recognition, intangible assets are carried at cost less accumulated amortization and impairment losses, if any.

2.9 Impairment of assets

(i) Financial assets

The Group applies the expected credit loss model for recognizing impairment loss on financial assets.

Expected credit loss is the difference between the contractual cash flows and the cash flows that the entity expects to receive discounted using effective interest rate.

Loss allowances for trade receivables are measured at an amount equal to lifetime expected credit losses. Lifetime expected credit losses are the expected credit losses that result from all possible default events over the expected life of a financial instrument. Lifetime expected credit loss is computed based on a provision matrix which takes in to the account historical credit loss experience adjusted for forward looking information. For other financial assets, expected credit loss is measured at the amount equal to twelve months expected credit loss unless there has been a significant increase in credit risk from initial recognition, in which case those are measured at lifetime expected credit loss.

(ii) Non-financial assets

Property, plant and equipment and intangible assets with finite life are evaluated for recoverability whenever there is any indication that their carrying amounts may not be recoverable. If any such indication exists, the recoverable amount (i.e. higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the Cash Generating Unit (CGU) to which the asset belongs.

If the recoverable amount of an asset (or CGU) is estimated to be less than its carrying amount, the carrying amount of the asset (or CGU) is reduced to its recoverable amount. An impairment loss is recognized in the statement of profit and loss.

(iii) Goodwill

Goodwill is tested for impairment on an annual basis and whenever there is an indication that goodwill may be impaired, relying on a number of factors including operating results, business plans and future cash flows.

The Group estimates the value-in-use of the cash generating unit (CGU) based on the future cash flows after considering current economic conditions and trends, estimated future operating results and growth rate and anticipated future economic and regulatory conditions. The estimated cash flows are developed using internal forecasts. The discount rate used for the CGU's represent the weighted average cost of capital based on the historical market returns of comparable companies.

2.10 Inventories

Raw material: Components and parts are valued at lower of cost or net realizable value. Cost is determined on weighted average method.

Finished goods: Finished goods are valued at the lower of the cost or net realisable value. Cost is determined on weighted average method.

Projects in progress / Work in progress: Hardware equipment and other items are carried at the lower of cost and net realisable value. Cost is determined on a specific identification basis. Cost includes material cost, freight and other incidental expenses incurred in bringing the inventory to the present location / condition.

2.11 Revenue recognition

Revenue from operations

The Group derives revenues primarily from information technology services comprising software development, consulting and related services.

The Group's contracts with customers include promises to transfer multiple products and services to a

customer. Revenues from customer contracts are considered for recognition and measurement when the contract has been approved, in writing, by the parties to the contract, the parties to the contract are committed to perform their respective obligations under the contract, and the contract is legally enforceable. The Group assesses the services promised in a contract and identifies distinct performance obligations in the contract. Identification of distinct performance obligations to determine the deliverables and the ability of the customer to benefit independently from such deliverables, and allocation of transaction price to these distinct performance obligations involves significant judgment.

- (i) Revenue from time and material and job contracts is recognised on the basis of time spent, efforts expended.
- (ii) In respect of other fixed-price contracts, revenue is recognized using percentage-of-completion method ('POC method') of accounting with contract costs incurred determining the degree of completion of the performance obligation. The contract costs used in computing the revenues include cost of fulfilling warranty obligations.
- (iii) Revenue from the sale of distinct internally developed software and manufactured systems and third party software is recognized upfront at the point in time when the system / software is delivered to the customer. In cases where implementation and / or customisation services rendered significantly modifies or customises the software, these services and software are accounted for as a single performance obligation and revenue is recognized over time on a POC method.
- (iv) Revenue is measured based on the transaction price, which is the consideration, adjusted for volume discounts, service level credits, performance bonus, price concessions and incentives, if any, as specified in the contract with the customer. Revenue also excludes taxes collected from customers.
- (v) License agreements that require payment of license fees contain a single performance obligation that represents ongoing access to a portfolio of intellectual property over the license term since such agreements provide the licensee the right to access a portfolio of intellectual property that exists at inception of the license agreement and to updates and new intellectual property that is added to the licensed portfolio during the term of the agreement that are highly interdependent or interrelated. Since we expect to expend efforts to develop and transfer updates to our licensed portfolio on an even or specified timeline basis, license fees are recognized as revenues on a straight-line or milestone basis over the estimated period of benefit of the license to the licensee.
- (vi) Contract assets are recognized when there is excess of revenue earned over billings on contracts. Contract assets are classified as unbilled revenue when there is unconditional right to receive cash, and only passage of time is required, as per contractual terms.
- (vii) Contract liability (unearned revenue) is recognized when there is billings in excess of revenues.
- (viii) The amount recognized as a warranty provision is based on the estimated costs that the company expects to incur to fulfil its warranty obligations. The provision is measured at its best estimate, which considers factors such as historical warranty claims, repair or replacement costs, and the experience of similar products. If the warranty costs are expected to be incurred beyond one year, the provision may be discounted to reflect the time value of money.

Interest income

Interest income from a financial asset is recognized when it is probable that the economic benefits will flow to the Group and the amount of income can be measured reliably. Interest income is accrued on a time basis, by reference to the principal outstanding and at the effective interest rate applicable, which is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to that asset's net carrying amount on initial recognition.

2.12 Foreign currency transactions

The functional currency of the Group and its Indian subsidiaries are Indian Rupees (INR) whereas the functional currency of foreign subsidiaries is the currency of their primary economic environment.

Foreign currency transactions are recorded at exchange rates prevailing on the date of the transaction. Foreign currency denominated monetary assets and liabilities are restated into the functional currency using exchange rates prevailing on the date of Balance Sheet. Gains and losses arising on settlement and restatement of foreign currency denominated monetary assets and liabilities are recognized in the profit or loss.

2.13 Foreign operations

For the purpose of these consolidated financial statements, the assets and liabilities of the Group's foreign operations are translated using exchange rates prevailing at the end of each reporting period. Income and expense items are translated at the average exchange rates for the period. Exchange differences arising on translation are recognized in other comprehensive income and accumulated in equity.

2.14 Financial instruments

Financial assets and liabilities are recognized when the Group becomes a party to the contractual provisions of the instruments.

Financial assets and liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value measured on initial recognition of financial asset or financial liability. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognized in profit or loss.

(i) Non-derivative financial instruments:

Cash and cash equivalents

The Group considers all highly liquid financial instruments, which are readily convertible into known amounts of cash and that are subject to an insignificant risk of change in value and having original maturities of three months or less from the date of purchase, to be cash equivalents.

Financial assets at amortised cost

Financial assets are subsequently measured at amortised cost using the effective interest rate method less impairment losses, if these financial assets are held within a business model whose objective is to hold these assets in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Financial assets at fair value

Financial assets not measured at amortised cost are carried at fair value through profit or loss (FVTPL) on initial recognition, unless the Group irrevocably elects on initial recognition to present subsequent changes in fair value in 'other comprehensive income', for investment in equity instruments which are not held for trading.

The Group, on initial application of IND AS 109 Financial Instruments has made an irrevocable election to present in 'other comprehensive income', subsequent changes in fair value of equity instruments not held for trading.

Financial asset at FVTPL, are measured at fair values at the end of each reporting period, with any gains or losses arising on remeasurement recognized in profit or loss.

Financial liabilities

Financial liabilities are subsequently carried at amortised cost using the effective interest rate method or at FVTPL. For financial liabilities carried at amortised cost, the carrying amounts approximate fair values due to the short term maturities of these instruments. Financial liabilities are classified as at FVTPL when the financial liability is either contingent consideration recognized in a business combination, or is held for trading or it is designated as FVTPL. Financial liabilities at FVTPL are stated at fair value, with any gains or losses arising on remeasurement recognized in profit and loss.

(ii) Derecognition of financial instruments

The Group derecognises a financial asset when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another party. If the Group retains substantially all the risk and rewards of transferred financial assets, the Group continues to recognize the financial asset and also recognizes the borrowing for the proceeds received.

The Group derecognises financial liabilities when, and only when, the Group's obligation are discharged, cancelled or have expired.

(iii) Financial guarantee contracts

Financial guarantee contracts issued by the Group are initially measured at fair value and subsequently measured at the higher of the amount of loss allowance determined in accordance with impairment requirements of Ind AS 109; and the amount initially recognized less, when appropriate, the cumulative amount of income recognized in accordance with the principles of Ind AS 115 Revenue.

2.15 Employee benefits

a Defined benefit plans

For defined benefit plans, the cost of providing benefits is determined using the Projected Unit Credit Method, with actuarial valuations being carried out at each balance sheet date. Remeasurement, comprising actuarial gains and losses, the effect of the changes to the asset ceiling and the return on plan assets (excluding interest), is reflected immediately in the balance sheet with a charge or credit recognized in other comprehensive income in the period in which they occur. The gratuity plan provides for a lump sum payment to employees at retirement, death, incapacitation or termination of the employment based on the respective employee's last drawn salary and the tenure of the employment.

b Defined contribution plans

Provident fund and ESIC: The Group's contributions to defined contribution plans are charged to the statement of profit and loss as and when the services are received from the employees.

c Compensated absences:

The Group provides for compensated absences subject to Group's rules. The employees are entitled to accumulate leave subject to certain limits, for future encashment or availment. The liability is accrued based on the number of days of unavailed leave at each Balance Sheet date and the awards are accrued based on number years of service of an employee. It is measured at the balance sheet date on the basis of an independent actuarial valuation using the Projected Unit Credit method.

Actuarial gains and losses are recognized in full in the consolidated statement of profit and loss in the period in which they occur.

d Other short-term employee benefits / bonus

Other short-term employee benefits such as bonus overseas social security contributions and performance incentives expected to be paid in exchange for services rendered by employees, are recognized in the consolidated statement of profit and loss during the period when the employee renders the service.

2.16 Taxation

Income tax expense represents the sum of the tax currently payable and deferred tax.

Current tax

Current tax is determined as the amount of tax payable in respect of taxable income for the year as determined in accordance with the applicable tax rates and the provisions of the Income-tax Act, 1961.

Deferred tax

Deferred tax is recognized on temporary differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognized for all taxable temporary differences. Deferred tax assets are generally recognized for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilized. Such deferred tax assets and liabilities are not recognized if the temporary difference arises from the initial recognition (other than in a business combination) of assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax liabilities and assets are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realized, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

2.17 Employee stock option plans:

Equity instruments granted are measured by reference to the fair value of the instrument at the date of grant. The equity instruments generally vest in a graded manner over the vesting period. The fair value determined at the grant date is expensed over the vesting period of the respective tranches of such grants (accelerated amortization). The share based compensation expense is determined based on the Group's estimate of equity instruments that will eventually vest.

The expense is recognized in the consolidated statement of profit and loss with a corresponding increase to the 'share option outstanding account', which is a component of equity.

2.18 Earnings per share

Basic earnings per share ("EPS") is calculated by dividing the net profit for the period attributable to equity shareholders by the weighted average number of equity shares outstanding during the period. The weighted average number of equity shares outstanding during the period are adjusted for any bonus shares issued during the period.

For calculating diluted earnings per share, the net profit for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares. The dilutive potential equity shares are adjusted for the proceeds receivable had the equity shares been actually issued at fair value (i.e. the average market value of the outstanding equity shares).

2.19 Provisions, contingent liabilities & contingent assets

A provision is recognized when the Group has a present obligation as a result of past event, it is probable that an outflow of resources will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognized as a finance costs.

Contingent liabilities are disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle the obligation or a reliable estimate of the amount cannot be made. Contingent assets are neither recognized nor disclosed in the financial statements.

2.20 Recent pronouncements

The Ministry of Corporate Affairs (MCA) notifies new standard or amendments to the existing standards under Companies (Indian Accounting Standards) Rules as issued from time to time. On 31 March 2023, the MCA amended the Companies (Indian Accounting Standards) Amendment Rules, 2023, as below :

- (i) *Ind AS 1, Presentation of Financial Statements* – The amendment requires the entities to disclose their material accounting policies rather than their significant accounting policies. The effective date for adoption of this amendment is annual periods beginning on or after April 1, 2023. The Group has evaluated the amendment and the impact of the amendment is insignificant in the Group's financial statements.
- (ii) *Ind AS 8, Accounting Policies, Changes in Accounting Estimates and Errors* – The amendment has introduced a definition of 'accounting estimates' and included amendments to Ind AS 8 to help entities distinguish changes in accounting policies from changes in accounting estimates. The effective date for adoption of this amendment is annual periods beginning on or after April 1, 2023. The Group has evaluated the amendment and there is no impact on its consolidated financial statements.
- (iii) *Ind AS 12, Income Taxes* – This amendment has narrowed the scope of the initial recognition exemption so that it does not apply to transactions that give rise to equal and offsetting temporary differences. The effective date for adoption of this amendment is annual periods beginning on or after April 1, 2023. The Group has evaluated the amendment and there is no impact on its consolidated financial statements.

(a) right-of-use assets and lease liabilities

(b) decommissioning, restoration and similar liabilities and the corresponding amounts recognized as part of the cost of the related asset.

Therefore, if a company has not yet recognized deferred tax on right-of-use assets and lease liabilities or has recognized deferred tax on net basis, the same need to recognize on gross basis based on the carrying amount of right-of-use assets and lease liabilities

- (iv) *Ind AS 103 – Common control Business Combination* - The amendments modify the disclosure requirement for business combination under common control in the first financial statement following the business combination. It requires to disclose the date on which the transferee obtains control of the transferor is required to be disclosed.

Maintenance of Books of Accounts under Section 128 of the Companies Act, 2013

As proviso to Rule 3(1) of the Companies (Accounts) Rules, 2014 (as amended), which provides for books of account to have the feature of audit trail, edit log and related matters in the accounting software used by the Company, is applicable to the Company only with effect from financial year beginning April 1, 2023, the reporting under clause (g) of Rule 11 of the Companies (Audit and Auditors) Rules, 2014 (as amended), is currently not applicable.

33 Segment information

Ind AS 108 establishes standards for the way that companies report information about their operating segments and related disclosures, as applicable about products and services, geographic areas, and major customers. Based on the "management approach" as defined in Ind AS 108, the management evaluates the company's performance and allocates resources based on an analysis of various performance indicators by business segments and geographical segments. Accordingly, information has been presented as per business segments. The accounting principles used in the preparation of the consolidated financial statements are consistently applied to record revenue and expenditure in individual segments, and are as set out in the significant accounting policies. Revenue and identifiable operating expenses in relation to segments are categorized based on items that are individually identifiable to that segment. Certain expenses such as

**NOTES FORMING PART OF THE
CONSOLIDATED FINANCIAL STATEMENTS**

CONSOLIDATED

All amounts in ₹ lakhs

depreciation stock compensation cost and finance cost, which form a significant component of total expenses, are not specifically allocable to specific segments as the underlying assets are used interchangeably. Management believes that it is not practical to provide segment disclosures relating to those expenses, and accordingly these expenses are separately disclosed as "unallocated" and adjusted against the operating income of the Group. Operating segments are defined as components of an enterprise for which discrete financial information is available that is evaluated regularly by the decision maker, in deciding how to allocate resources and assessing performance. The Group decision maker is the Chief Executive Officer. The Group has identified business segments as reportable segments. Accordingly, Semiconductor and Embedded have been disclosed as business segments.

Segregation of assets (except for specific assets), liabilities (except for specific segment liabilities), depreciation and other non-cash expenses into various business segments have not been done as the assets are used interchangeably between segments and the Group is of the view that it is not practical to reasonably allocate liabilities and other non-cash expenses to individual segments and an ad-hoc allocation will not be meaningful. Information on reportable segments for the year ended 31 March 2023 and 31 March 2022 is given below

36 Leases

- a The Group has elected not to apply the requirements of Ind AS 116 to leases which are expiring within 12 months from the date of transition by class of asset and leases for which the underlying asset is of low value on a lease-by-lease basis.

As a lessee, the Group determines the lease term as the non-cancellable period of a lease adjusted with any option to extend or terminate the lease, if the use of such option is reasonably certain. The Group makes an assessment on the expected lease term on a lease-by-lease basis and thereby assesses whether it is reasonably certain that any options to extend or terminate the contract will be exercised. The lease term in future periods is reassessed to ensure that the lease term reflects the current economic circumstances.

Valuation of stock options:

The fair value of services received in return for stock options granted to employees is measured by reference to the fair value of stock options granted. The fair value of stock options granted under various schemes have been measured using the Black–Scholes–Merton model at the date of the grant.

The Black-Scholes-Merton model includes assumptions regarding dividend yields, expected volatility, expected terms and risk free interest rates. In respect of par value options granted, the expected term of an option (or "option life") is estimated based on the vesting term and contractual term, as well as the expected exercise behaviour of the employees receiving the option. In respect of fair market value options granted, the option life is estimated based on the simplified method. Expected volatility of the option is based on historical volatility, during a period equivalent to the option life, of the observed market prices of the Company's

publicly traded equity shares. Dividend yield of the options is based on recent dividend activity. Risk-free interest rates are based on the government securities yield in effect at the time of the grant. These assumptions reflect management's best estimates, but these assumptions involve inherent market uncertainties based on market conditions generally outside of the Company's control. As a result, if other assumptions had been used in the current period, stock-based compensation expense could have been materially impacted. Further, if management uses different assumptions in future periods, stock-based compensation expense could be materially impacted in future years.

The estimated fair value of stock options is recognised in the statement of profit and loss on a straight-line basis over the requisite service period for each separately vesting portion of the award as if the award was, in-substance, multiple awards.

The model inputs for options granted during the year ended 31 March 2023 included:

(b) Financial risk management objectives and policies

The Group is exposed to market risk, credit risk and liquidity risk. The Group's senior management oversees the management of these risks. The Board of Directors reviews and agrees policies for managing each of these risks, which are summarized below.

Market risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Financial instruments affected by market risk include loans and borrowings and refundable deposits. The sensitivity analysis in the following sections relate to the position as at March 31, 2023 and March 31, 2022. The sensitivity analyses have been prepared on the basis that the amount of net debt and the interest rates of the debt.

The analysis excludes the impact of movements in market variables on: the carrying values of gratuity and other post retirement obligations; provisions.

The below assumption has been made in calculating the sensitivity analysis:

The sensitivity of the relevant profit or loss item is the effect of the assumed changes in respective market risks. This is based on the financial assets and financial liabilities held at March 31, 2023 and March 31, 2022.

Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Group exposure to the risk of changes in market interest rates relates primarily to the Group debt obligations with interest rates.

Interest rate sensitivity

If interest rates had been 1.00 basis points higher/lower and all other variables were held constant, the Group's profit for the year ended 31 March 2023 would decrease/increase by ₹ 43.38 (31 March 2022: decrease/increase by ₹ 65.30). This is mainly attributable to the Group's exposure to interest rates on its variable rate borrowings.

Credit risk

Credit risk is the risk of financial loss arising from counterparty failure to repay or service debt according to the contractual terms or obligations. Credit risk encompasses of both, the direct risk of default and the risk of deterioration of creditworthiness as well as concentration of risk. Credit risk is controlled by analysing credit limits and creditworthiness of customers on a continuous basis to whom the credit has been granted after obtaining necessary approvals for credit.

Credit risk on cash and cash equivalents is limited as the Company generally invest in deposits with banks and financial institutions with high credit ratings assigned by international and domestic credit rating agencies.

Exposure to credit risk

The carrying amount of financial assets represents the maximum credit exposure. The maximum exposure to credit risk was ₹ 9,788.96 and ₹ 5,953.08 as of 31 March 2023 and 31 March 2022 respectively, being the total of the carrying amount of trade receivables, investments, cash and cash equivalents, other balance with banks and other financial assets.

Trade receivables

Ind AS requires expected credit losses to be measured through a loss allowance. The Group assesses at each Balance Sheet date whether a financial asset or a group of financial assets is impaired.

The Company has used a practical expedient by computing the expected credit loss allowance for trade receivables based on a provision matrix. The provision matrix takes into account historical credit loss experience and adjusted for forward-looking information.

The expected credit loss allowance is based on the ageing of receivables and the rates in the provision matrix. Movement in the expected credit loss allowance is as follows:

Concentration Risk

Credit risk on cash and cash equivalent is limited as the Group generally transacts with banks with high credit ratings assigned by credit rating agencies. Trade receivable - The Group's exposure to credit risk is influenced mainly by the individual characteristic of each customer and the concentration of risk from the top few customers. Exposure to customers is diversified and there is single customer contributing more than 36% of outstanding trade receivables and unbilled revenues.

-Liquidity risk

Liquidity risk refers to the risk that the Group cannot meet its financial obligations. The objective of liquidity risk management is to maintain sufficient liquidity and ensure that funds are available for use as per requirements. The Group manages liquidity risk by maintaining adequate reserves, banking facilities and reserve borrowing facilities, by continuously monitoring forecast and actual cash flows, and by matching the maturity profiles of financial assets and liabilities.

41 Goodwill

Goodwill arising upon business combinations is not amortised but tested for impairment at least annually or more frequently if there is any indication that the cash generating unit to which goodwill is allocated is impaired.

Particulars	As at 31 March 2023	As at 31 March 2022
Gross carrying value		
Opening balance	7,185.63	7,185.63
Adjustments on account of business combination	(295.83)	-
Disposals	-	-
Closing balance	6,889.80	7,185.63

For the purpose of impairment testing, goodwill is allocated to a cash generating unit, representing the lowest level within the Group at which goodwill is monitored for internal management purposes and which is not higher than the Group's operating segment.

The recoverable amounts of the above cash generating units have been assessed using a value-in-use model. Value-in-use is generally calculated as the net present value of the projected cash flows plus a terminal value of the cash generating unit to which the goodwill is allocated. Initially, a discount rate is applied to calculate the net present value of the cash flows. Key assumptions upon which the Group has based its determinations of value-in-use include:

- a) The values assigned to the assumption reflect past experience and are consistent with the management's plans for focusing operations in these markets. The management believe that the planned market share growth per year for the next five years is reasonably achievable.
- b) Average gross margins achieved in the period immediately before the budget margin period, increased for expected efficiency improvements. This reflects past experience, except for efficiency improvements.
- c) A terminal value arrived at by extrapolating the last forecasted year cash flows to perpetuity, using a constant long-term growth rate. This long-term growth rate takes into consideration external macroeconomic sources of data. Such long-term growth rate considered does not exceed that of the relevant business and industry sector.
- d) The after tax discount rates used are based on the Group's weighted average cost of capital.
- e) The after tax discount rates used for various cash generating units.

The Group believes that any reasonably possible change in the key assumptions on which a recoverable amount is based would not cause the aggregate carrying amount to exceed the aggregate recoverable amount of the cash-generating unit.

Report on the Audit of the Standalone Financial Statements**Opinion**

We have audited the accompanying standalone financial statements of MosChip Technologies Limited ('the Company'), which comprise the Balance Sheet as at 31 March, 2023, the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Changes in Equity and the Statement of Cash Flows for the year then ended, and notes forming part of standalone financial statements, including a summary of significant accounting policies and other explanatory information (hereinafter referred to as 'the standalone financial statements').

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Companies Act, 2013 ('the Act') in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015 as amended ('Ind AS') and other accounting principles generally accepted in India, of the state of affairs of the Company as at 31 March, 2023 and its profit, total comprehensive income, changes in equity and its cash flows for the year ended on that date.

Basis for opinion

We conducted our audit of the standalone financial statements in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Standalone Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the ethical requirements that are relevant to our audit of the standalone financial statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the standalone financial statements.

Key audit matters

Key audit matters ('KAM') are those matters that, in our professional judgment, were of most significance in our audit of the standalone financial statements of the current period. These matters were addressed in the context of our audit of the standalone financial statements as a whole and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matters described below to be the key audit matters to be communicated in our report.

INDEPENDENT AUDITOR'S REPORT

Key Audit Matters

Key Audit Matter	Auditor's Response
<p>1. Revenue Recognition</p> <p>Revenue of the company is mainly from information Technology services comprising software development, consulting, and related services. Revenue from these contracts are recognised over a period of time in accordance with the requirements of Ind AS 115, Revenue from contracts with customers.</p> <p>Due to nature of contracts, revenue recognition involves usage of percentage of completion method, which is determined by survey of work performed, which involves significant judgements, identification of contractual obligations and the company's right to receive payments for performance completed till date, change in scope and the consequential revised price contract price and recognition of the liability for loss making contract/onerous obligations.</p> <p>Accordingly, revenue recognition involves aforesaid significant judgement and estimation. Hence, we determine this to be a key audit matter.</p> <p>Refer note 2.11 to the Standalone Financial Statements.</p>	<p>Our audit procedures included specific evaluation of compliance with requirements of Ind AS 115, "Revenue from Contracts with Customers" including:</p> <ul style="list-style-type: none"> ◆ Obtaining an understanding of the company's process and controls for revenue recognition process. ◆ Evaluation of key controls around such process and tested those controls for the operating effectiveness. ◆ We also carried out a combination of procedures involving enquiry and observation, and inspection of evidence in respect of operation of these controls. ◆ Performed test of details, on a sample basis including: <ul style="list-style-type: none"> ● Obtaining and reading contract documents, including master service agreements, and other documents that were part of the agreement. ● Analysed and identified the distinct performance obligations in the contracts. ● Compared the performance obligations with those identified and recorded by the Company. ● Considered the terms of the contracts to determine the transaction price including any variable consideration to verify the transaction price used for recording revenue. ● Performed analytical audit procedures for appropriateness of revenue disclosed by type. ● Assessed the disclosures made in the financial statements as per Ind AS 115.
<p>2. Goodwill on business acquisition:</p> <p>As detailed in the Note 41 to the Standalone Financial Statements the company carries a Goodwill of Rs. 5,215.16 lakhs as at 31 March, 2023.</p> <p>This Goodwill was recognised on acquisitions over a period, in terms of Ind AS 103 Business Combinations. The Carrying values of the Goodwill are based on the present value of future cash inflows and there exists a risk of impairment if cash flows are not in line with projections.</p> <p>As per Ind AS 36, 'Impairment of Assets', the goodwill acquired in business combination shall be tested annually for impairment. For the purpose of impairment testing, goodwill acquired in a business combination shall, from the acquisition date, be allocated to each of the acquirer's cash-generating units (CGU) or groups of cash-generating units,</p>	<p>We carried out the following audit procedures:</p> <ul style="list-style-type: none"> ● Evaluated the design and tested the operating effectiveness of the Company's controls in assessing the recoverable value of goodwill. ● Assessed the Company's methodology applied in determining the CGUs to which these assets are allocated. ● Tested the estimated recoverable value of these assets and assessed the methodologies used by management in deriving the recoverable value and tested the significant assumptions and the underlying data used by the Company in its analysis. ● Compared the significant assumptions to current industry, market and economic trends, relate Company's historical data. ● Performed sensitivity analysis of the significant assumptions to evaluate the potential change in the recoverable values of these assets resulting from hypothetical changes in underlying assumptions.

<p>that is expected to benefit from the synergies of the combination, irrespective of whether other assets or liabilities of the acquiree are assigned to those units or groups of units. Valuation of goodwill subject to management assessment of recoverable amount being higher of (i) fair value less costs to sell and (ii) value in use, involving significant judgement and are based on number of variables and estimates including projection of future sales, operating costs and profit margins; appropriate discount rate and terminal value growth rate; and probability of success in applying discounted cashflow valuation methodology.</p> <p>The assessment of impairment involves significant degree of management judgements and estimates.</p> <p>The management has concluded that the recoverable amount of CGU is higher than its carrying amount and accordingly, no impairment provisions has been recorded as at 31 March 2023. Considering the materiality of the amount involved in the estimates and assumptions used in determining the cash flows used in the impairment evaluation. Accordingly we determined impairment of such goodwill arising from business combination as Key Audit Matter for the current year audit.</p>	<ul style="list-style-type: none"> Assessed and validated the adequacy and appropriateness of the disclosures made by the management in the Standalone Financial Statements.

Information Other than the Standalone Financial Statements and Auditor's Report Thereon

The Company's management and Board of Directors are responsible for the preparation of the other information. The other information comprises the information included in the Management Discussion and Analysis, Board's Report including Annexures to Board's Report, Business Responsibility and sustainable Report, Corporate Governance and Shareholder's information, but does not include the consolidated financial statements and standalone financial statements and our auditor's report thereon.

Our opinion on the standalone financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the standalone financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the standalone financial statements, or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibility of Management and those charged with Governance for the Standalone Financial Statement

The Company's management and Board of Directors are responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these standalone financial statements that give a true and fair view of the

INDEPENDENT AUDITOR'S REPORT

financial position, financial performance, including other comprehensive income, changes in equity and cash flows of the Company in accordance with the Indian Accounting Standard ('Ind AS') and other accounting principle generally accepted in India, including Ind AS specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management and Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors of the company are responsible for overseeing the Company's financial reporting process.

Auditor's Responsibility for the Audit of the Standalone Financial Statements

Our objectives are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also :

- Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal controls.
- Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls with reference to standalone financial statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's Report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the Standalone Financial Statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the Standalone Financial Statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning

INDEPENDENT AUDITOR'S REPORT

the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the Standalone Financial Statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

- 1) As required by the Companies (Auditor's Report) Order, 2020 ('the Order') issued by the Central Government of India in terms of sub-section(11) of Section 143 of the Act, we give in 'Annexure-B' a statement on the matters specified in paragraphs 3 and 4 of the Order.
- 2) As required by Section 143(3) of the Act, based on our audit we report that:
 - a. We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
 - b. In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.

Annexure A to the Independent Auditors' Report

(Referred to in paragraph 2 (f) under 'Report on Other Legal and Regulatory Requirements' section of our report of even date)

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls with reference to standalone financial statements of MosChip Technologies Limited ("the Company") as of 31 March 2023 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control with reference to financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India ("ICAI"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the Orderly and efficient conduct of its business, including adherence to the Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls with reference to financial statements based on our audit. We conducted our audit in accordance with the Guidance Note and the Standards on Auditing, issued by ICAI and deemed to be prescribed under Section 143(10) of the Act, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to financial statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial control system with reference to financial statements and their operating effectiveness. Our audit of internal financial controls with reference to financial statements included obtaining an understanding of internal financial controls over to financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the standalone financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls with reference to Financial Statements

A company's internal financial control with reference to financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control with reference to financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management

and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls with reference to Financial Statements

Because of the inherent limitations of internal financial controls with reference to financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to financial statements to future periods are subject to the risk that the internal financial control with reference to financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2023, based on the criteria for internal financial control over financial reporting established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the ICAI.

NOTES FORMING PART OF THE STANDALONE FINANCIAL STATEMENTS

STANDALONE

All amounts in ₹ lakhs

1 Corporate Information

MosChip Technologies Limited ('the Company') was incorporated in 1999 as a private limited company under the Companies Act, 1956 and listed in Bombay Stock Exchange (BSE) in 2001. The Registered office of the Company is situated at 7th Floor, "My Home Twitza", Hyderabad Knowledge City, Hyderabad, Telangana 500081 which is its principal place of business. As on 31 March 2023, Mayuka Holdings Private Limited is the holding company of the Company.

The Company is engaged in to business of development and manufacture of System on Chip (SOC) technologies and Internet on Things (IoT).

The Standalone Financial Statements for the year ended 31 March 2023 were approved by the Board of Directors and authorised for issue on 24 May 2023.

2 Significant accounting policies

2.1 Statement of Compliance

These standalone financial statements have been prepared in accordance with the Indian Accounting Standards (referred to as "Ind AS") prescribed under section 133 of the Companies Act, 2013 read with the Companies (Indian Accounting Standards) Rules as amended from time to time.

2.2 Basis for preparation of standalone financial statements:

These standalone financial statements have been prepared in Indian Rupee which is the functional currency of the Company.

These standalone financial statements have been prepared on historical cost basis, except for certain financial instruments which are measured at fair value or amortised cost at the end of each reporting period, as explained in the accounting policies below. Historical cost is generally based on the fair value of the consideration given in exchange for goods and services. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. All assets and liabilities have been classified as current and non-current as per the Company's normal operating cycle. Based on the nature of services rendered to customers and time elapsed between deployment of resources and the realisation in cash and cash equivalents of the consideration for such services rendered, the Company has considered an operating cycle of 12 months.

2.3 Operating cycle

All the assets and liabilities have been classified as current or non-current as per the Company's normal operating cycle and other criteria set out in the Schedule III to the Companies Act, 2013.

Assets :

An asset is classified as current when it satisfies any of the following criteria:

- a) it is expected to be realized in, or is intended for sale or consumption in, the Company's normal operating cycle;
- b) it is held primarily for the purpose of being traded;
- c) it is expected to be realized within twelve months after the reporting date; or
- d) it is cash or cash equivalent unless it is restricted from being exchanged or used to settle a liability for at least twelve months after the reporting date.

Liabilities :

A liability is classified as current when it satisfies any of the following criteria:

- a) it is expected to be settled in the Company's normal operating cycle;
- b) it is held primarily for the purpose of being traded;
- c) it is due to be settled within twelve months after the reporting date; or
- d) the Company does not have an unconditional right to defer settlement of the liability for at least twelve months after the reporting date.

Terms of a liability that could, at the option of the counterparty, result in its settlement by the issue of equity instruments do not affect its classification.

Current assets / liabilities include the current portion of non-current assets/ liabilities respectively. All other assets / liabilities are classified as non-current.

2.4 Use of estimates:

The preparation of standalone financial statements requires the management of the Company to make estimates and assumptions that affect the reported amounts of assets and liabilities on the date of standalone financial statements, disclosure of contingent liabilities as at the date of the standalone financial statements, and the reported amounts of income and expenses during the reported period. Actual results may differ from these estimates. Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised prospectively.

Critical accounting estimates

(i) Revenue recognition

The Company applies the percentage of completion method in accounting for its fixed price development contracts. Use of the percentage of completion method requires the Company to estimate the efforts or costs expended to date (input method) as a proportion of the total efforts or costs to be expended. Efforts or costs expended have been used to measure progress towards completion as there is a direct relationship between input and productivity. Provisions for estimated losses, if any, on uncompleted contracts are recorded in the period in which such losses become probable based on the expected contract estimates at the reporting date.

Judgement is also required to determine the transaction price for the contract and to describe the transaction price to each distinct performance obligation. The transaction price could be either a fixed amount of customer consideration or variable consideration with elements such as volume discounts, service level credits, performance bonuses, price concessions and incentives. The transaction price is also adjusted for the effects of the time value of money if the contract includes a significant financing component. Any consideration payable to the customer is adjusted to the transaction price, unless it is a payment for a distinct product or service from the customer. The estimated amount of variable consideration is adjusted in the transaction price only to the extent that it is highly probable that a significant reversal in the amount of cumulative revenue recognised will not occur and is reassessed at the end of each reporting period. The Company allocates the elements of variable considerations to all the performance obligations of the contract unless there is observable evidence that they pertain to one or more distinct performance obligations.

The Company exercises judgments while determining the transaction price allocated to performance obligations using the expected cost plus margin approach.

(ii) Income taxes and deferred taxes

The major tax jurisdictions for the Company are India and the United States of America. Significant judgments are involved in determining the provision for income taxes including judgment on whether tax positions are probable of being sustained in tax assessments. A tax assessment can involve complex issues, which can only be resolved over extended time periods. Deferred tax is recorded on temporary differences between the tax bases of assets and liabilities and their carrying amounts, at the rates that have been enacted or substantively enacted at the reporting date. The ultimate realization of deferred tax assets is dependent upon the generation of future taxable profits during the periods in which those temporary differences and tax loss carry forwards become deductible. The Company considers the expected reversal of deferred tax liabilities and projected future taxable income in making this assessment. The amount of the deferred tax assets considered realizable, however, could be reduced in the near term if estimates of future taxable income during the carry-forward period are reduced.

(iii) Property, plant and equipment

Property, plant and equipment represent a significant proportion of the asset base of the Company. The charge in respect of periodic depreciation is derived after determining an estimate of an asset's expected useful life and the expected residual value at the end of its life. The useful lives and residual values of Company's assets are determined by management at the time the asset is acquired and reviewed at the end

of each reporting period. The lives are based on historical experience with similar assets as well as anticipation of future events, which may impact their life, such as changes in technology.

(iv) Provisions

A provision is recognised when the Company has a present obligation as a result of a past event and it is probable that an outflow of resources will be required to settle the obligation, in respect of which a reliable estimate can be made. These are reviewed at each balance sheet date and adjusted to reflect the current best estimates.

(v) Business combinations and intangible assets

Business combinations are accounted for using Ind AS 103, which requires the identifiable net assets and contingent consideration to be fair valued in order to ascertain the net fair value of identifiable assets, liabilities and contingent liabilities of the acquiree. Significant estimates are required to be made in determining the value of contingent consideration and intangible assets and their estimated useful life. These valuations are generally conducted by independent valuation experts.

(vi) Impairment of Goodwill

Goodwill is tested for impairment on an annual basis and whenever there is an indication that the recoverable amount of a cash generating unit is less than its carrying amount based on a number of factors including operating results, business plans, future cash flows and economic conditions. The recoverable amount of cash generating units is determined based on higher of value-in-use and fair value less cost to sell. The goodwill impairment test is performed at the level of the cash-generating unit or Company's of cash-generating units which are benefitting from the synergies of the acquisition and which represents the lowest level at which goodwill is monitored for internal management purposes. Market related information and estimates are used to determine the recoverable amount. Key assumptions on which management has based its determination of recoverable amount include estimated long term growth rates, weighted average cost of capital and estimated operating margins. Cash flow projections take into account past experience and represent management's best estimate about future developments.

(vii) Defined benefit plans and compensated absences

The cost of the defined benefit plans, compensated absences and the present value of the defined benefit obligation are based on actuarial valuation using the projected unit credit method. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases and mortality rates. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

(viii) Expected credit losses on financial assets

The impairment provisions of financial assets are based on assumptions about risk of default and expected timing of collection. The Company uses judgment in making these assumptions and selecting the inputs to the impairment calculation, based on the Company's past history, customer's creditworthiness, existing market conditions as well as forward looking estimates at the end of each reporting period.

(ix) Other estimates

The share based compensation expense is determined based on the Company's estimate of equity instruments that will eventually vest.

2.5 Property, plant and equipment

Recognition and measurement

Property, plant & equipment and intangible assets are stated at cost less accumulated depreciation/amortisation and net of impairment. Cost of an item of property, plant and equipment comprises its purchase price, including import duties and non-refundable purchase taxes, after deducting trade discounts and rebates, any directly attributable costs of bringing the item to its working condition for its intended use and estimated

NOTES FORMING PART OF THE STANDALONE FINANCIAL STATEMENTS

STANDALONE

All amounts in ₹ lakhs

cost of dismantling and removing the item and restoring the site on which it is located. Subsequent expenditure relating to property, plant and equipment is capitalized only when it is probable that future economic benefits associated with these will flow to the company and the cost of the item can be measured reliably.

The cost of property, plant and equipment not ready / available for use as at each reporting date is disclosed under capital work in progress.

Depreciation

Depreciable amount for assets is the cost of an asset, less its estimated residual value. Depreciation on Property, Plant & Equipment (including assets taken on lease), other than freehold land, is charged based on the straight line method on the estimated useful life as prescribed in schedule II to the Companies Act, 2013 except in respect of the certain categories of assets, where the life of the assets has been assessed based on internal technical estimate, considering the nature of the asset and estimated usage of the asset, the operating conditions of the asset, past history of replacement, anticipated technological changes.

The estimated useful lives of assets are as follows:

Useful lives of depreciable assets	Useful Life (in years)
Mask tools	5
Lab equipment	5
Plant and machinery	5
Furniture and fixtures	10
Office equipment	5
Computers	3
Vehicles	10
Other Intangible assets	3 - 5 years

The estimated useful life of intangible assets (software) is 3 to 5 years and these are amortised on a straight line basis. Project specific intangible assets are amortised over their estimated useful life on a straight line basis or over the period of the license/project period, whichever is lower.

The estimated useful life and residual values of Property, plant & equipment and intangible assets are reviewed at the end of each reporting period.

Assets acquired under leasehold improvements are amortized over the shorter of estimated useful life of the asset or the related lease term.

Intellectual Property Rights ('IPR') comprise right to use for licensed software. The Company has recognised the IPR based on consideration paid. Subsequent to initial recognition, the intangible asset is measured at cost, less any accumulated amortization and accumulated impairment losses. The IPR's are amortised over their estimated useful life of the asset on a straight line basis.

An item of Property, Plant & Equipment and intangible asset is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of Property, Plant & Equipment and intangible assets is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in profit or loss.

2.6 Leases

At inception of the contract, the Company determines whether the contract is a lease or contains a lease arrangement. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

The Company recognises right-of-use asset representing its right to use the underlying asset for the lease

term at the lease commencement date. The cost of the right-of-use asset (ROU) measured at inception shall comprise of the amount of the initial measurement of the lease liability adjusted for any lease payments made at or before the commencement date less any lease incentives received, plus any initial direct costs incurred and an estimate of costs to be incurred by the lessee in dismantling and removing the underlying asset or restoring the underlying asset or site on which it is located. The right-of-use assets is subsequently measured at cost less any accumulated depreciation, accumulated impairment losses, if any and adjusted for any remeasurement of the lease liability. The right-of-use assets is depreciated using the straight-line method from the commencement date over the shorter of lease term or useful life of right-of-use asset. The estimated useful lives of right-of-use assets are determined on the same basis as those of property, plant and equipment. Right-of-use assets are tested for impairment whenever there is any indication that their carrying amounts may not be recoverable. Impairment loss, if any, is recognised in the standalone statement of profit and loss.

The Company measures the lease liability at the present value of the lease payments that are not paid at the commencement date of the lease. The lease payments are discounted using the interest rate implicit in the lease, if that rate can be readily determined. If that rate cannot be readily determined, the Company uses incremental borrowing rate. For leases with reasonably similar characteristics, the Company, on a lease by lease basis, may adopt either the incremental borrowing rate specific to the lease or the incremental borrowing rate for the portfolio as a whole. The lease payments shall include fixed payments, variable lease payments, residual value guarantees, exercise price of a purchase option where the Company is reasonably certain to exercise that option and payments of penalties for terminating the lease, if the lease term reflects the lessee exercising an option to terminate the lease. The lease liability is subsequently remeasured by increasing the carrying amount to reflect interest on the lease liability, reducing the carrying amount to reflect the lease payments made and remeasuring the carrying amount to reflect any reassessment or lease modifications or to reflect revised in-substance fixed lease payments.

The Company recognises the amount of the remeasurement of lease liability as an adjustment to the right-of-use asset (ROU). Where the carrying amount of the right-of-use asset is reduced to zero and there is a further reduction in the measurement of the lease liability, the Company recognises any remaining amount of the re-measurement in standalone statement of profit and loss.

The Company has elected not to apply the requirements of Ind AS 116 to short-term leases of all assets that have a lease term of 12 months or less and leases for which the underlying asset is of low value. The lease payments associated with these leases are recognized as an expense on a straight-line basis over the lease term.

2.7 Business combinations

Business combinations are accounted for using the purchase (acquisition) method. The cost of an acquisition is measured as the fair value of the assets transferred, liabilities incurred or assumed and equity instruments issued at the date of exchange by the Company. Identifiable assets acquired and liabilities and contingent liabilities assumed in a business combination are measured initially at fair value at the date of acquisition. Transaction costs incurred in connection with a business acquisition are expenses as incurred.

When the consideration transferred by the Company in a business combination includes assets or liabilities resulting from a contingent arrangement, the contingent consideration is measured at its acquisition date fair value and included as part of the consideration transferred in a business combination. Contingent consideration that is classified as an asset or liability is remeasured at subsequent reporting dates in accordance with IND AS 109 Financial Instruments or IND AS 37 Provisions, Contingent Liabilities and Contingent Assets, with the corresponding gain or loss being recognised in standalone statement of profit or loss.

2.8 Goodwill and intangible assets

Goodwill represents the cost of acquired business as established at the date of acquisition of the business in excess of the acquirer's interest in the net fair value of the identifiable assets, liabilities and contingent liabilities less accumulated impairment losses, if any. Goodwill is tested for impairment annually or when events or circumstances indicate that the implied fair value of goodwill is less than its carrying amount.

Intangible assets acquired separately are measured at cost of acquisition. Intangible assets acquired in a business combination are measured at fair value as at the date of acquisition. Following initial recognition, intangible assets are carried at cost less accumulated amortization and impairment losses, if any.

2.9 Impairment of assets

(i) Financial assets

The Company applies the expected credit loss model for recognizing impairment loss on financial assets

Expected credit loss is the difference between the contractual cash flows and the cash flows that the entity expects to receive discounted using effective interest rate.

Loss allowances for trade receivables are measured at an amount equal to lifetime expected credit losses. Lifetime expected credit losses are the expected credit losses that result from all possible default events over the expected life of a financial instrument. Lifetime expected credit loss is computed based on a provision matrix which takes in to the account historical credit loss experience adjusted for forward looking information. For other financial assets, expected credit loss is measured at the amount equal to twelve months expected credit loss unless there has been a significant increase in credit risk from initial recognition, in which case those are measured at lifetime expected credit loss.

(ii) Non-financial assets

Property, plant and equipment and intangible assets with finite life are evaluated for recoverability whenever there is any indication that their carrying amounts may not be recoverable. If any such indication exists, the recoverable amount (i.e. higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the Cash Generating Unit (CGU) to which the asset belongs.

If the recoverable amount of an asset (or CGU) is estimated to be less than its carrying amount, the carrying amount of the asset (or CGU) is reduced to its recoverable amount. An impairment loss is recognised in the statement of profit and loss.

(iii) Goodwill

Goodwill is tested for impairment on an annual basis and whenever there is an indication that goodwill may be impaired, relying on a number of factors including operating results, business plans and future cash flows.

The Company estimates the value-in-use of the cash generating unit (CGU) based on the future cash flows after considering current economic conditions and trends, estimated future operating results and growth rate and anticipated future economic and regulatory conditions. The estimated cash flows are developed using internal forecasts. The discount rate used for the CGU's represent the weighted average cost of capital based on the historical market returns of comparable companies.

2.10 Inventories

Raw material:

Raw material are valued at lower of cost or net realizable value. Cost is determined on weighted average method.

Finished goods:

Finished goods are valued at the lower of the cost or net realisable value. Cost is determined on weighted average method.

Projects in Progress / Work in Progress:

Hardware equipment and other items are carried at the lower of cost and net realisable value. Cost is determined on a specific identification basis. Cost includes material cost, freight and other incidental expenses incurred in bringing the inventory to the present location / condition.

2.11 Revenue recognition

Revenue from operations

The Company derives revenues primarily from Information Technology services comprising software development, consulting and related services.

The Company's contracts with customers include promises to transfer multiple products and services to a customer. Revenues from customer contracts are considered for recognition and measurement when the contract has been approved, in writing, by the parties to the contract, the parties to the contract are committed to perform their respective obligations under the contract, and the contract is legally enforceable. The Company assesses the services promised in a contract and identifies distinct performance obligations in the contract. Identification of distinct performance obligations to determine the deliverables and the ability of the customer to benefit independently from such deliverables, and allocation of transaction price to these distinct performance obligations involves significant judgment

- (i) Revenue from time and material and job contracts is recognised on the basis of time spent, efforts expended.
- (ii) In respect of other fixed-price contracts, revenue is recognised using percentage-of-completion method ("POC method") of accounting with contract costs incurred determining the degree of completion of the performance obligation. The contract costs used in computing the revenues include cost of fulfilling warranty obligations.
- (iii) Revenue from the sale of distinct internally developed software and manufactured systems and third party software is recognised upfront at the point in time when the system / software is delivered to the customer. In cases where implementation and / or customisation services rendered significantly modifies or customises the software, these services and software are accounted for as a single performance obligation and revenue is recognised over time on a POC method.
- (iv) Revenue is measured based on the transaction price, which is the consideration, adjusted for volume discounts, service level credits, performance bonus, price concessions and incentives, if any, as specified in the contract with the customer. Revenue also excludes taxes collected from customers.
- (v) License agreements that require payment of license fees contain a single performance obligation that represents ongoing access to a portfolio of intellectual property over the license term since such agreements provide the licensee the right to access a portfolio of intellectual property that exists at inception of the license agreement and to updates and new intellectual property that is added to the licensed portfolio during the term of the agreement that are highly interdependent or interrelated. Since we expect to expend efforts to develop and transfer updates to our licensed portfolio on an even or specified timeline basis, license fees are recognized as revenues on a straight-line or milestone basis over the estimated period of benefit of the license to the licensee.
- (vi) Contract assets are recognised when there is excess of revenue earned over billings on contracts. Contract assets are classified as unbilled revenue when there is unconditional right to receive cash, and only passage of time is required, as per contractual terms.
- (vii) Contract liability (unearned revenue) is recognised when there is billings in excess of revenues.
- (viii) The amount recognized as a warranty provision is based on the estimated costs that the company expects to incur to fulfil its warranty obligations. The provision is measured at its best estimate, which considers factors such as historical warranty claims, repair or replacement costs, and the experience of similar products. If the warranty costs are expected to be incurred beyond one year, the provision may be discounted to reflect the time value of money.

Interest income

Interest income from a financial asset is recognized when it is probable that the economic benefits will flow to the Company and the amount of income can be measured reliably. Interest income is accrued on, time basis, by reference to the principal outstanding and at the effective interest rate applicable, which is the rate

that exactly discounts estimated future cash receipts through the expected life of the financial asset to that asset's net carrying amount on initial recognition.

2.12 Foreign currencies

In preparing the Standalone Financial Statements of the Company, transactions in currencies other than the company's functional currency (foreign currencies) are recognised at the rates of exchange prevailing at the dates of the transactions. At the end of each reporting period, monetary items denominated in foreign currencies are retranslated at the rates prevailing at that date. Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated. Exchange differences on monetary items are recognised in statement of profit or loss in the period in which they arise.

2.13 Financial instruments

Financial assets and liabilities are recognised when the Company becomes a party to the contractual provisions of the instruments.

Financial assets and liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value measured on initial recognition of financial asset or financial liability. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognised in profit or loss.

(i) Non-derivative financial instruments:

Cash and cash equivalents

The Company considers all highly liquid financial instruments, which are readily convertible into known amounts of cash and that are subject to an insignificant risk of change in value and having original maturities of three months or less from the date of purchase, to be cash equivalents.

Financial assets at amortised cost

Financial assets are subsequently measured at amortised cost using the effective interest rate method less impairment losses, if these financial assets are held within a business model whose objective is to hold these assets in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Financial assets at fair value

Financial assets not measured at amortised cost are carried at fair value through profit or loss (FVTPL) on initial recognition, unless the Company irrevocably elects on initial recognition to present subsequent changes in fair value in 'other comprehensive income', for investment in equity instruments which are not held for trading.

The Company, on initial application of IND AS 109 Financial Instruments has made an irrevocable election to present in 'other comprehensive income', subsequent changes in fair value of equity instruments not held for trading.

Financial asset at FVTPL, are measured at fair values at the end of each reporting period, with any gains or losses arising on remeasurement recognised in profit or loss.

Investment in subsidiaries

Investment in subsidiaries is carried at cost less impairment as per Ind AS 27 Standalone and Separate Financial Statements.

Financial liabilities

Financial liabilities are subsequently carried at amortised cost using the effective interest rate method or at

FVTPL. For financial liabilities carried at amortised cost, the carrying amounts approximate fair values due to the short term maturities of these instruments. Financial liabilities are classified as at FVTPL when the financial liability is either contingent consideration recognised in a business combination, or is held for trading or it is designated as FVTPL. Financial liabilities at FVTPL are stated at fair value, with any gains or losses arising on remeasurement recognised in profit and loss.

(ii) Derecognition of financial instruments

The Company derecognises a financial asset when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another party. If the Company retains substantially all the risk and rewards of transferred financial assets, the Company continues to recognize the financial asset and also recognizes the borrowing for the proceeds received.

The Company derecognises financial liabilities when, and only when, the Company's obligation are discharged, cancelled or have expired.

(iii) Financial guarantee contracts

Financial guarantee contracts issued by the Company are initially measured at fair value and subsequently measured at the higher of the amount of loss allowance determined in accordance with impairment requirements of Ind AS 109; and the amount initially recognised less, when appropriate, the cumulative amount of income recognised in accordance with the principles of Ind AS 115 Revenue.

2.14 Employee benefits

a Defined benefit plans

For defined benefit plans, the cost of providing benefits is determined using the Projected Unit Credit Method, with actuarial valuations being carried out at each balance sheet date. Remeasurement, comprising actuarial gains and losses, the effect of the changes to the asset ceiling and the return on plan assets (excluding interest), is reflected immediately in the balance sheet with a charge or credit recognised in other comprehensive income in the period in which they occur. The gratuity plan provides for a lump sum payment to employees at retirement, death, incapacitation or termination of the employment based on the respective employee's last drawn salary and the tenure of the employment.

b Defined contribution plans

Provident fund and ESIC: The Company's contributions to defined contribution plans are charged to the statement of profit and loss as and when the services are received from the employees.

c Compensated absences:

The Company provides for compensated absences and long term service awards subject to Company's rules. The employees are entitled to accumulate leave subject to certain limits, for future encashment or availment. The liability is accrued based on the number of days of unavailed leave at each Balance Sheet date and the awards are accrued based on number years of service of an employee. It is measured at the balance sheet date on the basis of an independent actuarial valuation using the Projected Unit Credit method.

Actuarial gains and losses are recognised in full in the Standalone statement of profit and loss in the period in which they occur.

d Other short-term employee benefits / bonus

Other short-term employee benefits such as bonus overseas social security contributions and performance incentives expected to be paid in exchange for services rendered by employees, are recognised in the standalone statement of profit and loss during the period when the employee renders the service.

2.15 Taxation

Income tax expense represents the sum of the tax currently payable and deferred tax.

Current tax

Current tax is determined as the amount of tax payable in respect of taxable income for the year as determined in accordance with the applicable tax rates and the provisions of the Income-tax Act, 1961.

Deferred tax

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all taxable temporary differences. Deferred tax assets are generally recognised for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilized. Such deferred tax assets and liabilities are not recognised if the temporary difference arises from the initial recognition (other than in a business combination) of assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax liabilities and assets are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realized, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

2.16 Employee stock option plans:

Equity instruments granted are measured by reference to the fair value of the instrument at the date of grant. The equity instruments generally vest in a graded manner over the vesting period. The fair value determined at the grant date is expensed over the vesting period of the respective tranches of such grants (accelerated amortization). The share based compensation expense is determined based on the Company's estimate of equity instruments that will eventually vest.

The expense is recognized in the Standalone statement of profit and loss with a corresponding increase to the 'share option outstanding account', which is a component of equity.

2.17 Earnings per share

Basic earnings per share ("EPS") is calculated by dividing the net profit for the period attributable to equity shareholders by the weighted average number of equity shares outstanding during the period. The weighted average number of equity shares outstanding during the period are adjusted for any bonus shares issued during the period.

For calculating diluted earnings per share, the net profit for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares. The dilutive potential equity shares are adjusted for the proceeds receivable had the equity shares been actually issued at fair value (i.e. the average market value of the outstanding equity shares).

2.18 Provisions, contingent liabilities & contingent assets

A provision is recognized when the Company has a present obligation as a result of past event, it is probable that an outflow of resources will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance costs.

Contingent liabilities are disclosed when there is a possible obligation arising from past events, the existence

of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle the obligation or a reliable estimate of the amount cannot be made. Contingent assets are neither recognised nor disclosed in the financial statements.

2.19 Recent pronouncements

The Ministry of Corporate Affairs (MCA) notifies new standard or amendments to the existing standards under Companies (Indian Accounting Standards) Rules as issued from time to time. On 31 March 2023, the MCA amended the Companies (Indian Accounting Standards) Amendment Rules, 2023, as below :

- (i) *Ind AS 1, Presentation of Financial Statements* – The amendment requires the entities to disclose their material accounting policies rather than their significant accounting policies. The effective date for adoption of this amendment is annual periods beginning on or after April 1, 2023. The Group has evaluated the amendment and the impact of the amendment is insignificant in the Group's financial statements.
- (ii) *Ind AS 8, Accounting Policies, Changes in Accounting Estimates and Errors* – The amendment has introduced a definition of 'accounting estimates' and included amendments to Ind AS 8 to help entities distinguish changes in accounting policies from changes in accounting estimates. The effective date for adoption of this amendment is annual periods beginning on or after April 1, 2023. The Group has evaluated the amendment and there is no impact on its standalone financial statements.
- (iii) *Ind AS 12, Income Taxes* – This amendment has narrowed the scope of the initial recognition exemption so that it does not apply to transactions that give rise to equal and offsetting temporary differences. The effective date for adoption of this amendment is annual periods beginning on or after April 1, 2023. The Group has evaluated the amendment and there is no impact on its standalone financial statements.
 - (a) right-of-use assets and lease liabilities
 - (b) decommissioning, restoration and similar liabilities and the corresponding amounts recognized as part of the cost of the related asset.

Therefore, if a company has not yet recognised deferred tax on right-of-use assets and lease liabilities or has recognised deferred tax on net basis, the same need to recognize on gross basis based on the carrying amount of right-of-use assets and lease liabilities

- (iv) *Ind AS 103 – Common control Business Combination* - The amendments modify the disclosure requirement for business combination under common control in the first financial statement following the business combination. It requires to disclose the date on which the transferee obtains control of the transferor is required to be disclosed.

Maintenance of Books of Accounts under Section 128 of the Companies Act, 2013

As proviso to Rule 3(1) of the Companies (Accounts) Rules, 2014 (as amended), which provides for books of account to have the feature of audit trail, edit log and related matters in the accounting software used by the Company, is applicable to the Company only with effect from financial year beginning April 1, 2023, the reporting under clause (g) of Rule 11 of the Companies (Audit and Auditors) Rules, 2014 (as amended), is currently not applicable.

34 Segment information

Ind AS 108 establishes standards for the way that companies report information about their operating segments and related disclosures, as applicable about products and services, geographic areas, and major customers. Based on the “management approach” as defined in Ind AS 108, the management evaluates the Company’s performance and allocates resources based on an analysis of various performance indicators by business segments and geographical segments. Accordingly, information has been presented as per business segments. The accounting principles used in the preparation of the standalone financial statements are consistently applied to record revenue and expenditure in individual segments, and are as set out in the significant accounting policies. Revenue and identifiable operating expenses in relation to segments are categorized based on items that are individually identifiable to that segment. Certain expenses such as depreciation and finance cost, which form a significant component of total expenses, are not specifically allocable to specific segments as the underlying assets are used interchangeably. Management believes that it is not practical to provide segment disclosures relating to those expenses, and accordingly these expenses are separately disclosed as “unallocated” and adjusted against the operating income of the Company. Operating segments are defined as components of an enterprise for which discrete financial information is available that is evaluated regularly by the decision maker, in deciding how to allocate resources and assessing performance. The Company decision maker is the Chief Executive Officer. The Company has identified business segments as reportable segments. Accordingly, Semiconductor and Embedded have been disclosed as business segments.

Segregation of assets (except for specific assets), liabilities (except for specific segment liabilities), depreciation and other non-cash expenses into various business segments have not been done as the assets are used interchangeably between segments and the Company is of the view that it is not practical to reasonably allocate liabilities and other non-cash expenses to individual segments and an ad-hoc allocation will not be meaningful.

Information on reportable segments for the year ended 31 March 2023 and 31 March 2022 is given below

37 Leases

- a The Company has elected not to apply the requirements of Ind AS 116 to leases which are expiring within 12 months from the date of transition by class of asset and leases for which the underlying asset is of low value on a lease-by-lease basis.

As a lessee, the Company determines the lease term as the non-cancellable period of a lease adjusted with any option to extend or terminate the lease, if the use of such option is reasonably certain. The Company makes an assessment on the expected lease term on a lease-by-lease basis and thereby assesses whether it is reasonably certain that any options to extend or terminate the contract will be exercised. The lease term in future periods is reassessed to ensure that the lease term reflects the current economic circumstances.

Valuation of stock options:

The fair value of services received in return for stock options granted to employees is measured by reference to the fair value of stock options granted. The fair value of stock options granted under various schemes have been measured using the Black-Scholes-Merton model at the date of the grant.

The Black-Scholes-Merton model includes assumptions regarding dividend yields, expected volatility, expected terms and risk free interest rates. In respect of par value options granted, the expected term of an option (or "option life") is estimated based on the vesting term and contractual term, as well as the expected exercise behaviour of the employees receiving the option. In respect of fair market value options granted, the option life is estimated based on the simplified method. Expected volatility of the option is based on historical volatility, during a period equivalent to the option life, of the observed market prices of the Company's publicly traded equity shares. Dividend yield of the options is based on recent dividend activity. Risk-free interest rates are based on the government securities yield in effect at the time of the grant. These assumptions reflect management's best estimates, but these assumptions involve inherent market uncertainties based on market conditions generally outside of the Company's control. As a result, if other assumptions had been used in the current period, stock-based compensation expense could have been materially impacted. Further, if management uses different assumptions in future periods, stock-based compensation expense could be materially impacted in future years.

The estimated fair value of stock options is recognised in the statement of profit and loss on a straight-line basis over the requisite service period for each separately vesting portion of the award as if the award was, in-substance, multiple awards.

(b) Financial risk management objectives and policies

The Company is exposed to market risk, credit risk and liquidity risk. The Company's senior management oversees the management of these risks. The Board of Directors reviews and agrees policies for managing each of these risks, which are summarized below.

Market risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Financial instruments affected by market risk include loans and borrowings and refundable deposits. The sensitivity analysis in the following sections relate to the position as at 31 March 2023 and 31 March 2022. The sensitivity analysis have been prepared on the basis that the amount of net debt and the interest rates of the debt.

The analysis excludes the impact of movements in market variables on: the carrying values of gratuity and other post retirement obligations; provisions.

The below assumption has been made in calculating the sensitivity analysis:

The sensitivity of the relevant profit or loss item is the effect of the assumed changes in respective market risks. This is based on the financial assets and financial liabilities held at 31 March 2023 and 31 March 2022.

Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company's exposure to the risk of changes in market interest rates relates primarily to the Company's debt obligations with interest rates.

Interest rate sensitivity

If interest rates had been 1 basis points higher/lower and all other variables were held constant, the Company's profit for the year ended March 31, 2023 would decrease/increase by ₹ 43.38 lakhs (31 March 2022: decrease/increase by ₹ 56.56 lakhs). This is mainly attributable to the Company's exposure to interest rates on its variable rate borrowings.

Credit risk

Credit risk is the risk of financial loss arising from counterparty failure to repay or service debt according to the contractual terms or obligations. Credit risk encompasses of both, the direct risk of default and the risk of deterioration of creditworthiness as well as concentration of risk. Credit risk is controlled by analysing credit limits and creditworthiness of customers on a continuous basis to whom the credit has been granted after obtaining necessary approvals for credit.

Credit risk on cash and cash equivalents is limited as the Company generally invest in deposits with banks and financial institutions with high credit ratings assigned by international and domestic credit rating agencies.

Exposure to credit risk

The carrying amount of financial assets represents the maximum credit exposure. The maximum exposure to credit risk was ₹ 9,090.70 lakhs and ₹ 5,889.18 lakhs as of 31 March 2023 and 31 March 2022 respectively, being the total of the carrying amount of trade receivables, investments, cash and cash equivalents, other balance with banks, loans and other financial assets.

Trade receivables

Ind AS requires expected credit losses to be measured through a loss allowance. The Company assesses at each Balance Sheet date whether a financial asset or a Company of financial assets is impaired.

The Company has used a practical expedient by computing the expected credit loss allowance for trade receivables based on a provision matrix. The provision matrix takes into account historical credit loss experience and adjusted for forward-looking information.

**NOTES FORMING PART OF THE
STANDALONE FINANCIAL STATEMENTS**

STANDALONE

All amounts in ₹ lakhs

The expected credit loss allowance is based on the ageing of receivables and the rates in the provision matrix. Movement in the expected credit loss allowance is as follows:

Particulars	As at 31 March 2023	As at 31 March 2022
Balance at the beginning of the year	1,250.68	1,111.80
Movement in the expected credit loss allowance on trade receivables and other financial assets:

Transferred from amalgamated company		89.30
Reversed/utilised during the year	-	-
Balance at the end of the year	1,393.59	1,250.68

Concentration Risk

Credit risk on cash and cash equivalent is limited as the Company generally transacts with banks with high credit ratings assigned by credit rating agencies. Trade receivable - The Company's exposure to credit risk is influenced mainly by the individual characteristic of each customer and the concentration of risk from the top few customers. Exposure to customers is diversified and there is a single customer contributing more than 33% of outstanding trade receivables and unbilled revenues.

Liquidity risk

Liquidity risk refers to the risk that the Company cannot meet its financial obligations. The objective of liquidity risk management is to maintain sufficient liquidity and ensure that funds are available for use as per requirements. The Company manages liquidity risk by maintaining adequate reserves, banking facilities and reserve borrowing facilities, by continuously monitoring forecast and actual cash flows, and by matching the maturity profiles of financial assets and liabilities.

(c) Capital Management

The Company's policy is to maintain a stable capital base so as to maintain investor, creditor and market confidence and to sustain future development of the business. Management monitors capital on the basis of return on capital employed as well as the debt to total equity ratio.

For the purpose of debt to total equity ratio, debt considered is long-term and short-term borrowings. Total equity comprise of issued share capital and all other equity reserves.

The capital structure as of March 31, 2023 and March 31, 2022 was as follows:

Particulars	As at 31 March 2023	As at 31 March 2022
Total equity attributable to the equity shareholders of the Company	12,008.89	7,347.89
As a percentage of total capital	75%	56%
Long term borrowings including current maturities	1,409.66	144.47
Short term borrowings	2,521.36	5,739.36

41 Goodwill

Goodwill arising upon business combinations is not amortised but tested for impairment at least annually or more frequently if there is any indication that the cash generating unit to which goodwill is allocated is impaired.

Particulars	As at 31 March 2023	As at 31 March 2022
Gross carrying value		
Opening balance	5,511.00	4,441.50
Goodwill arising on business combination	-	1,069.50
Adjustments on account of business combination	(295.84)	-
Closing balance	5,215.16	5,511.00

For the purpose of impairment testing, goodwill is allocated to a cash generating unit, representing the lowest level within the Company at which goodwill is monitored for internal management purposes and which is not higher than the Company's operating segment.

The recoverable amounts of the above cash generating units have been assessed using a value-in-use model. Value-in-use is generally calculated as the net present value of the projected post-tax cash flows plus a terminal value of the cash generating unit to which the goodwill is allocated. Initially, a discount rate is applied to calculate the net present value of the post-tax cash flows. Key assumptions upon which the Company has based its determinations of value-in-use include:

- The values assigned to the assumption reflect past experience and are consistent with the management's plans for focusing operations in these markets. The management believe that the planned market share growth per year for the next five years is reasonably achievable.
- Average gross margins achieved in the period immediately before the budget margin period, increased for expected efficiency improvements. This reflects past experience, except for efficiency improvements.
- A terminal value arrived at by extrapolating the last forecasted year cash flows to perpetuity, using a constant long-term growth rate of 0%. This long-term growth rate takes into consideration external macroeconomic sources of data. Such long-term growth rate considered does not exceed that of the relevant business and industry sector.
- The after tax discount rates used are based on the Company's weighted average cost of capital.

e) The after tax discount rates used for various cash generating units.

The Company believes that any reasonably possible change in the key assumptions on which a recoverable amount is based would not cause the aggregate carrying amount to exceed the aggregate recoverable amount of the cash-generating unit.

42 Disaggregated revenue information

The table below presents disaggregated revenues from contracts with customers by offerings for the years ended March 31, 2023 and March 31, 2022, respectively. The Company believes that this disaggregation best depicts how the nature, amount, timing and uncertainty of our revenues and cash flows are affected by industry, market and other economic factors.

NOTICE OF 24th ANNUAL GENERAL MEETING

NOTES:

1. The Explanatory Statement pursuant to Section 102 of the Companies Act, 2013 (Act), relating to Special business Item Nos. 3 & 4 of the Notice, is annexed hereto. The relevant details as required under Regulation 36(3) of SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 ("SEBI Listing Regulations") and Secretarial Standards-2, of the persons seeking appointment / re-appointment as Directors / Managing Director are also annexed.
2. In accordance with the applicable MCA Circulars, SEBI Circulars, provisions of the Companies Act, 2013 ('the Act') and the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 ("SEBI Listing Regulations"), the AGM of the Company is being held through VC / OAVM. The deemed venue for the AGM shall be the Registered Office of the Company.
3. The Company has made arrangements through its Registrar & Transfer Agent (RTA), KFin Technologies Limited (formerly known as 'KFin Technologies Private Limited') ("KFintech"), to provide Video Conferencing (VC) / Other Audio-Visual Means (OAVM) facility for the AGM and for conducting of the e-AGM. The Members can join the e-AGM 15 minutes before and after the scheduled time of the commencement of the Meeting by following the procedure mentioned in the Notice.
4. Pursuant to the provisions of Section 105 the Companies Act, a Member entitled to attend and vote at the AGM is entitled to appoint a Proxy to attend and vote on his/ her behalf and the Proxy need not be a Member of the Company. However, since this AGM is being held pursuant to the applicable MCA and SEBI Circulars as mentioned hereinabove, through VC/OAVM, physical attendance of Members has been dispensed with. Accordingly, the facility for appointment of Proxies by the Members will not be available for the AGM and hence the Proxy Form and Attendance Slip are not annexed to this AGM Notice.
5. Since the AGM will be held through VC/ OAVM, the route map of the venue of the Meeting is not annexed hereto.
6. Corporate Members intending to depute their authorized representatives to attend the Meeting through VC/ OAVM are requested to send to the Company a certified true copy of the Board Resolution together with attested specimen signature of the duly authorized signatory(ies) who are authorized to attend and vote at the Meeting on their behalf.
7. In case of joint holders attending the Meeting, only such joint holder who is higher in order of names will be entitled to vote.
8. The Board of Directors of the Company has appointed M/s B S S & Associates, Company Secretaries, as the Scrutinizer to scrutinize the remote e-voting and e-voting during the AGM in a fair and transparent manner.
9. The Register of Members and the Share Transfer Books of the Company will remain closed from Thursday, the 09th day of September, 2023 to the 15th day of September, 2023 (both days inclusive).
10. Members holding shares in single name are advised to avail the facility of nomination in respect of shares held by them pursuant to the provisions of Section 72 of the Companies Act, 2013. Members holding shares in physical form desiring to avail this facility may send their nomination in the prescribed Form No. SH-13 duly filled-in to the RTA of the Company. Members holding shares in electronic mode may contact their respective DPs for availing this facility.
11. 12. As per Regulation 40 of the Regulations, as amended, securities of listed companies can be transferred only in dematerialized form with effect from, April 1, 2019, except in case of request received for transmission or transposition of securities. In view of this and to eliminate all risks associated with physical shares and for ease of portfolio management, members holding shares in physical form are requested to consider converting

NOTICE OF 24th ANNUAL GENERAL MEETING

their holdings to dematerialized form. Members can contact the Company's Registrars and Transfer Agents, M/s. KFin Technologies Private Limited, Hyderabad for assistance in this regard.

13. SEBI has mandated submission of Permanent Account Number ("PAN") by every participant in the securities market. Members holding shares in electronic form are, therefore, requested to provide their PAN details to their respective DPs with whom they are maintaining their demat accounts. Members holding shares in physical form can submit their PAN details to the RTA.
14. In accordance with, the MCA Circulars and SEBI Circulars, the Notice of AGM & 24th Annual Report is being sent only in electronic mode to Members whose e-mail addresses are registered with the Company or the Depository Participant(s).

As physical copy of the AGM Notice will not be sent by the modes permitted under Companies Act, 2013, the AGM Notice is available on the Company's website at <https://www.moschip.com> and website of the Stock Exchange i.e. BSE Limited at <https://www.bseindia.com/> and on the website of Registrar and Share Transfer Agent at <https://www.kfintech.com>.

15. Members desiring any information with regard to AGM are requested to write to the Company at an early date so as to enable the management to keep the information ready.
16. The registers i.e Register of Directors and Key Managerial Personnel and their shareholding and Register of Contracts or Arrangements in which directors are interested maintained under Section 170 and Section 189 of the Act respectively will be available electronically for inspection by members during the AGM. All documents referred to in this Notice and the Explanatory Statement annexed hereto will also be available for electronic inspection without any fee by the members from the date of circulation of this notice up to the date of AGM, i.e. September 15, 2023. Members seeking to inspect such documents can send an email to investorrelations@moschip.com.
17. To support the 'Green Initiative', members who have not registered their e-mail addresses so far are requested to register their e-mail address with their Depository participants (DPs), in case the shares are held by them in electronic form/Demat form and with KFin Technologies Private Limited, in case the shares are held by them in physical form for receiving all communication(s) including Annual Report, Notices, Circulars, etc. from the Company electronically.
